Map of India

Though India is a vast country which is hundreds of kilometres in length and width, it is shown in a small size.

On the previous page is given a map of India. You must have seen this map earlier. Tell where you've seen it?

There are many colonies in our villages and towns. Similarly, there are many states in our country. In the map given, you can see all the states of India.

Identify the shapes of different states given below and write their names ?

Which are the neighbouring states surrounding the state of Chhattisgarh? Look at the map, mention the direction of these states.

North _____ East _____

South _____ West _____

Look at the lower most tip of India on the given map. There is no state or town shown beyond India's borders? It is because there is sea on the southern side of India.

Identify the sea on the sides of India and colour it blue.

On the map of India, you can see small dots. The dots indicates the location of the capital of that state.

Chhattisgarh is surrounded by land on all sides. Is it the same for Andaman and Nicobar Islands?

Nicobar is surrounded by water on all sides. A piece of land surrounded by water on all sides is called an island. Look for more such islands in the map.

What have we learnt?
