

ASSIGNMENT 4

CHAPTER 6 – Geomorphic Processes

1. Why is the surface of the earth uneven?
2. How Epeirogeny forces are different from orogeny forces?
3. What is weathering? Explain the types of weathering with the help of examples.
4. What do you mean by landslides? State the factors on which landslides depend.
5. Explain the process of denudation.
6. What do you mean by soil? Explain major factors responsible for soil formation.
7. Explain the importance of soil.
8. Explain how climate is the single factor for soil formation.
9. What do you mean by volcanoes?
10. Explain the central type and fissure type volcanoes with the help of diagram.
11. What do you mean by exfoliation? Explain the process of exfoliation with the help of diagram.
12. Explain the importance of iron.
