India has rich regional music traditions that take inspiration from local traditions and cultures.

Regional music traditions

① Panihari in Rajasthan → local scarcity of water, women sing these songs while going to get the water.

② Powada → Maharashtra → Tales of Shivaji are sung, reflecting influence of history of Marathas.

③ Punjabi Tappa → Representing fusion of Punjabi, Sindhi languages

④ Sohre in Buddel Khand region during child birth showing importance of the occasion

⑤ Ormanipuri sankirtana → showing
local influence of Krishna
cult and Sri Vaishnavism.

⑥ Ghazals in Uttarpradesh showing
cultural connect of Awadh and
Ganga-Jamuni Tahqeeb.

Evidently local music traditions
in India are essentially embedded
in local socio-cultural realities.

The working class movement in India developed during the later part of 19th century and early 20th century i.e. publication of 'Bharat Shramjeevi'.

Reasons for emergence of working class movements:

- ① Development of industries in late 19th- early 20th century, high working hours.
- ② Colonial policies - Factories Act of 1882 and Trade Unions Act of 1920s.
- ③ Russian Revolution in 1917 inspired working class movement across the world
- ④ war time miseries caused by World War I.

⑤ leaders such as Gandhi and Nehru supported the cause of workers i.e. Ahmedabad mill strike

Contribution towards freedom struggle

- ① Workers became inalienable part of mass movement.
- ② Significantly participated in non-cooperation and civil disobedience movement.
- ③ Helped disseminate the exploitative character of British rule.
- ④ Gave socialistic orientation to independence movement.

Thus added to the mass movement and helped in independence movement.

3. क्या आप इस विचार से सहमत हैं कि गांधीवादी राजनीति एक प्रकार से तिलक की राजनीति का ही विस्तार थी? (उत्तर 150 शब्दों में दीजिए) Do you agree with the view that Gandhian politics was, in a sense, a continuation of Tilak's politics? (Answer in 150 words) 10

Mahatma Gandhi and B.G. Tilak
were the prominent mass leaders of Independence movement.

Tilak's politics

- ① Politics of masses - bringing them in the mainstream.
- ② cultural influence; invoked past glory, and used Ganpati Shivaji festivals.
- ③ complete swaraj: Great was clear when he said 'swaraj is my birth right'.
- ④ Extremist and violent methods were not forbidden i.e. "philosophy of Bomb".

Gandhian politics → Taking in from Tilak

- ① Gandhi further added to mass character i.e. champawat farmers, millowners etc.
- ② Gandhi too invoked the cultural traditions of India i.e. Ramayana
- ③ Swaraj and passive Resistance common theme

Gandhi - Break from Tilak

- ① Non-violence formed the core of Gandhian satyagraha.
- ② Inclusivity and Hindu-muslim unity i.e. Khilafat-movement

Hence while continuing from Tilak's mass politics, Gandhi added his unique strategy to build a strong mass movement.

As per 6th assessment report of
IPCC, world's Oceans are facing
global warming, since industrial
revolution, Ocean T° has risen by
1.1 °C.

World Ocean : losing Their memory

- ① Ocean warming and cooling cycles are disturbed.
- ② Ocean heritage such as corals at Great barrier reef of Australia is getting extinct.
- ③ Marine animals such as sea cows are finding it difficult to survive.
- ④ systems like ~~Antarctic~~ Atlantic meridional circulation are getting disturbed

Consequences of phenomenon

- ① Thermal expansion and Sea level rise i.e. As per IPCC since 1901, sea level rise by 1.1 m. can be verified
- ② Marine Resources such as fishery are getting depleted or having high oil content.
- ③ Marine heat waves due to anomalous warming can be seen
- ④ Methane hydrates causing release of CH_4 and CO_2 which is buried deep in oceans

Thus oceans have become a major tipping point in global climate change. protection of oceans as called by UN conference on ocean is the need of the hour.

Soil amendments are substances that are added to the soil to make it more fertile and useful for cultivation i.e. mulch is added

Benefits of Soil Amendment

- ① Help in regeneration of the soil.
- ② soil amendments like mulch help conserving soil moisture.
- ③ It helps replenish the nutrient supply in the soil. i.e. steal slag gives iron.
- ④ soil amendments like Biochar help in improving texture of the soil.

⑤ Animal excreta is also used as soil amendment to induce beneficial biological activity.

(Concerns associated)

- ① oversupply of some nutrients such as iron resulting in red soils.
- ② No idea to farmers about which type of soil amendment is suitable for which soil.
- ③ Availability of soil amendment to small and marginal farmers.
- ④ Soil amendments like mulch prevent sanitisation by sunshine.

Thus there is a need to effectively use soil amendment to ensure good soil health.

Hybrid power plants are those power plants that include two or more sources in its power generation ~~and~~ cycle for example wind-solar power plant in Gujarat.

Benefits of Hybrid power plants

- ① Help reduce the problem of intermittency in solar and wind project'
- ② Increase the efficiency of power plants i.e. 70-80% efficient.
- ③ Help in optimal utilization of land resource.
- ④ provide economies of scale thus low cost power.

Challenges

- ① High Investment requirement remains a major challenge.
- ② Synchronisation of two types of power generation cycle is a major challenge.
- ③ Requirement of large land area is another problem.
- ④ Import dependence on China for solar modules and big wind turbines

To ensure that maximum benefit is achieved through such projects, there is a need to provide government support, hardware production through PLI scheme for high efficiency solar modules.

Van Allen Radiation belts are part of earth's protection mechanism which protects it from solar particles and other extra terrestrial radiation.

(formation of VAN Allen Radiation Belts)

They are formed by Earth's magnetism. Earth's rotation results in earth becoming a magnet and movement of magma in its core provides charge to the magnetic field.

In outer space these radiation belts protect earth

from solar flares and coronal mass ejections.

Reason for growing focus on VAN
Allen belts

- ① To understand The changing nature of earth's magnetism i.e oscillation.
- ② Understanding solar flares and its energy particles.
- ③ protecting earth from future extra terrestrial radiations.
- ④ understanding the evolution and nature of earth's magnetic field

Thus Van Allen belts have become the focal area of study in the present time

Marital rape can be defined as sexual intercourse by husband with his wife, without her consent. In section 375 of IPC, it is added to as an exception to rape, thus not-punishable.

Marital Rape Should be Criminalised

- ① It goes against the bodily autonomy of women protected under Article 21 of Constitution.
- ② In Sukhita Srivastava vs. Chandigarh Administration, SC held that sexual relations are matter of choice. Marital rape violates it.
- ③ Goes against the principles of equality before law under Article 14.

- (4) Violates the dignity of the women
- (5) International best practice countries like UK, Australia have done away with it.
- (6) Justice J.S. Verma Committee has also recommended the criminalisation
- (7) Lifetime trauma of living with her own rapist

Objections to criminalisation

- Destabilize the institution of marriage.
- Difficult to establish guilt.
- It will violate privacy
- It can be misused like Section 498A or Domestic violence.

Thus there is a need of greater deliberations among stakeholders. The future should be guided by the call of PM Modi to "ensure women dignity".

Care economy refers to the works related to child care, and care of elderly in the economy.

Challenges related to ~~child~~ care economy

- (1) Lack of recognition of its existence, as evident from lack of any policy framework.
- (2) Women's care work amounting to 31% of GDP (UN Women) remains Unpaid.
- (3) Highly skewed representation of women in the care economy sector.
- (4) Lack of credit, infrastructure support from the government.
- (5) Care of elderly having large

Seal supply gap.

Steps taken to address challenges

- ① Integrated program for old persons focuses on establishing old age homes in each district.
- ② The maternity Benefit Act provides for building crèche facilities in public organisations.
- ③ Self-Help groups in care-economy sectors are being provided swilling support.

However more needs to be done in terms of establishing a regulatory framework, providing credit as priority sector and providing skilling. This will help in growth of sustainable care economy.

World Bank defines learning poverty as "inability of a children to read a simple text or solve a simple maths sum".

As per "learning poverty Report" of World Bank, 53% children in low and middle income countries are facing challenge of learning poverty in post covid period.

Implications

- ① It will result in low learning outcomes in higher stages.
- ② It may propel drop out by children.
- ③ Pratham's ASER report pointed out that it results in low -

self esteem among children

- (4) Reduce future life chances i.e
continuous cycle of poverty

Way Ahead

- ① Investing in basic literacy and numeracy - as promoted by NIPUN scheme of Ministry of education.
- ② national education policy promotes integration of early childhood care into education providing good base for teacher training.
- ③ Investing in teacher training
- ④ New learning pedagogy making study more fun activity.
- ⑤ Ensuring implementation of RTE Act 2009 to ensure school AUFS. schemes like PM-EvIdyा will further help in improving school education.

Murals are type of paintings
that are done on old walls-
as compared to freshly plastered
walls of frescoes.

India has rich tradition of
murals present in Chola temples etc

(Evolution of Mural Tradition of South India)

① Earliest murals in South India
are found in Caves of Ajanta
i.e. Padmapani mural.

② During Pallava times, the
murals became part of
temples and big wall murals
became prevalent.

③ Mural tradition reached its

zenith during Chola temples for
example the murals of RajRajeswara
temple.

④ Vijaynagara murals further
added to the mural diversity
for example in Vijaya Viththala
temple.

Characteristics

① Bright colours like Red, Green
etc were used in these
murals, the colours were
natural colours.

② Subjects were drawn from diverse

fields -

→ In Ajanta painting we see
Jataka stories.

→ In Chola and Vijaynagar
we see mythological figures
from mahabharata

→ chaitya murals are peculiar
because other than deities murals
of Kings and Queen also
seen

(3) Contemporary influences can
be seen for example the
archaic lines in Vijayanagera
murals as influence of
Sultanate rulers.

The murthi traditions further
inspired the rise of Bengal
School of painting during
National movement by Abanindranath
Nath Tagore i.e. Bharatmata
painting.

The rise of Indian Nationalism against Colonialism was seen in early 19th century in areas like Bengal and Maharashtra.

Indian Nationalism product of colonial modernity

- ① Colonial language English became the communication medium between Marathis, Bengalis, etc.
- ② English education introduced modern ideas like equality, liberty.
- ③ Enlightenment ideas inspired people like Raja Ram Mohan Roy
- ④ British introduced press which became the medium of dissemination of modern ideas.

- (5) British administration provided unity to whole of India.
- (6) Railways and Telegraph made communication easy between natives
- (7) British missionaries resulted in Domestie backlash and Revival.

Indian Nationalism Beyond British modernity

- (1) While leaders like Raja Ram Mohan Roy were inspired by western ideas, they also found inspiration in Indian culture and religion
- (2) Rebellion against Ray were present such as Sanyasi revolt
- (3) Discontent against British was emerging as evident from Vellore mutiny.

(4) Leaders like Dayanand Saraswati
were guided by old heritage.
Called for "Going Back to
Vedas"

(5) Indian National Congress was
always present as pointed out
by Aurobindo i.e. "Nation from
Eternity"

Thus it can be said
that while British modernity
did help amplify the anti-
colonial movement, the nationalist
ideas, struggle etc. were
developing independent of that
also.

Environmentalism refers to ideology that calls for the protection and conservation of environment and ecology.

In post-independence India environment movement arose as a response to the developmental projects.

Environmentalism - organized movements in post independence India

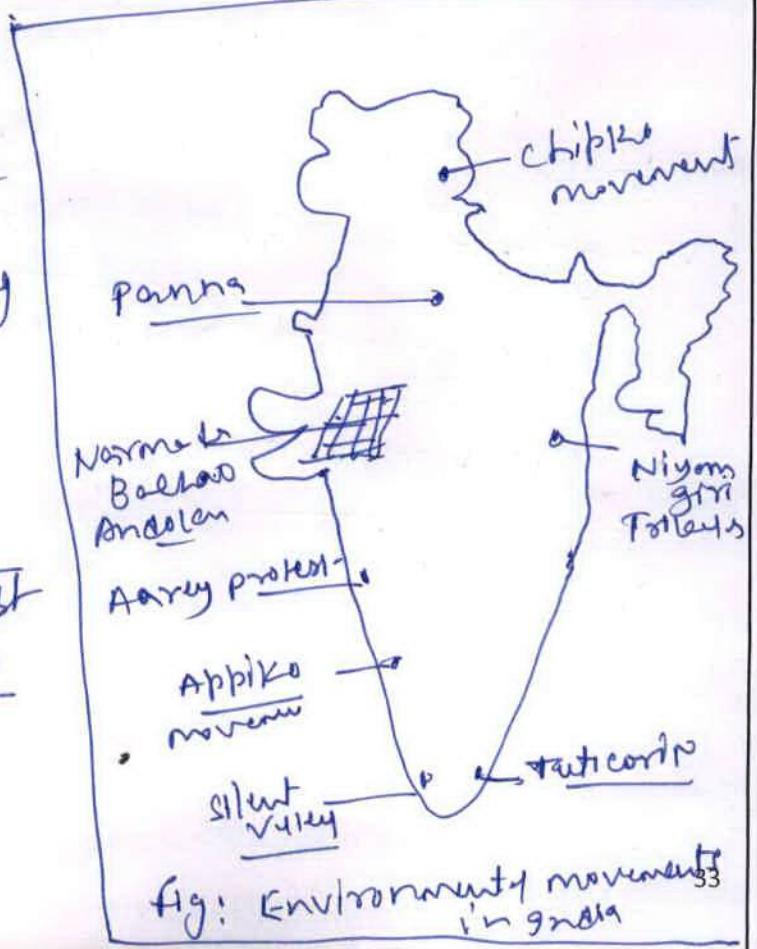

① Chipko movement: It emerged in Uttarakhand against the cutting of trees.

- people 'hugged the trees', it was led by 'Gaura Devi' and Sunderlal Bahuguna.

- ② Farmade Bachao Andolan - Against the building of Sardar Sarovar dam which caused displacement of tribes led by Metha patkar.
- ③ Silent Valley protests against a dam project that submerged parts of Silent Valley national park and endangered Iron Tailed Macaque

- ④ Appiko movement in Karnataka against felling of trees in forest.

- ⑤ Niyamgiri Tribes protest against POSCO Steel Plant

⑥ In Tuticorin against Vedanta's copper smelting plant resulting in its closure.

⑦ Aarey metro car shed was protested for protecting Aarey urban forest in Mumbai

⑧ Panja tribals in Madhya Pradesh against The diamond mining project in Buxwaha forest.

Evidently post independence India has seen many organized and successful environmental movements, ensuring a balance between development and ecology.

Napoleon was a French military general and ruler, who emerged in the aftermath of French revolution.

(Napoleonic goals)

- ① Establishing supremacy of France in Europe.
- ② Ambition to destroy the British monopoly on sea.

(Policy of Continental Blockade)

Napoleon employed the policy of continental blockade by blocking the sea trade and movement of naval ships to Britain.

III Conceived strategy

- ① It resulted in polarisation of Europe
- ② prompted the British to act against Napoleon.
- ③ large resources were employed
- ④ failure of campaign, eroded the authority and popularity of Napoleon within the country.
- ⑤ Britain responded by coordinating with other countries.

Thus, in my opinion,
the continental blockade was
an ill conceived strategy which

Cost Napoleon disastrously and
Europe united against him
resulted in his defeat in
war Battle of Waterloo.

Arctic paradox refers to the anomalous warming of arctic as compared to other regions due to the phenomenon of Arctic amplification. Arctic amplification is caused by the suspension of black carbon on Arctic ice sheets which reduces albedo of Arctic ice sheets causing more warming.

Another aspect of Arctic paradox is that while Arctic warming is a major tipping point and signifies greater climate change, it is evoking responses from Arctic countries which will further ~~result~~ add to climate change i.e. large scale developmental activity.

Shipping in Arctic waters.

Spatial distribution of Minerals and Energy resources in the Arctic Region

Mineral Resources

- ① Arctic accounts for $\frac{1}{5}$ th of the world's rare earth mineral resources.
- ② Countries like Russia and Canada have large scale mineral resources in their Arctic territories.

Energy Resources

Arctic area is full of energy resources such as oil, gas and methane hydrates.

Spatial distribution

- ① Countries like Iceland, Denmark

have large scale Gas, oil resources

- (2) Russian arctic territories have
gas resources.
- (3) Canada and USA have large

Cryosphere refers to the ice-covered parts of the earth which includes Arctic, Antarctic, Hindu Kush snow covered areas.

Cryosphere changes

Cryosphere is seeing changes like melting of sea-ice, melting of glaciers, increase in vegetation due to the human activities such as transport, fossil fuel burning etc. causing global warming.

Devastating Impact of cryosphere changes

On Ecosystem

- ① Due to melting sea of glaciers, pristine ecosystems of Antarctic are

disappearing

- (2) Due to melting of ice biodiversity such as seals, penguins are facing threat of extinction
- (3) bare vegetation is increasing in these areas, further adding to depletion of ice.

Impact on people

- (1) Cryosphere is a major factor in driving climate change. Cryosphere depletion is causing changes in long term precipitation pattern.
- (2) sea level rise is ever evident phenomenon
- (3) sudden phenomena such as breaking of polar vortex and ingress of cold wave in Europe and America, i.e. freezing in Chicago 2020.
- (4) Melting of this ice is resulting in

freeing of long buried pathogens
causing disease.

Measures to Tackle Threat

- ① Ensuring that pristine areas like Antarctic remain outside of anthropogenic influence. as ensured by Antarctic treaty 1959.
- ② Reducing human activity in areas like Arctic
- ③ Urgent climate action as suggested by IPCC report "Code red warning of 1.5°C"
- ④ Country level effort to bring down GHG emissions i.e. India's renewable energy push
- ⑤ Ensuring governance of these areas i.e. Antarctic bill 2022
Cryosphere needs to be conserved to protect the humanity from complete annihilation

शहरी बाढ़ की बारंबार होने वाली घटनाएं भारत में शहरी पारितंत्र के लिए एक गंभीर खतरा उत्पन्न करती हैं। महत्वपूर्ण अवसंरचनाओं पर पड़ने वाले इसके प्रभाव पर विशेष बल देते हुए चर्चा कीजिए। (उत्तर 250 शब्दों में दीजिए)

The frequent instances of urban flooding pose a severe risk to the urban ecosystem in India. Discuss with special emphasis on its impact on the critical infrastructure. (Answer in 250 words)

15

urban flooding refers to the flood in urban areas due to high rainfall and other reasons for example recent floods in mumbai and Hyderabad.

Reasons for urban flooding

- natural causes
 - High rainfall events caused by climate change in cities like mumbai
 - Urban Heat Island effect inducing high intensity rains
- Man made reasons
 - Encroachment of urban wetlands
 - clogging of urban wetlands drains by plastic waste
 - Lack of any green spaces for water absorption
 - concretization of urban landmass

Severe Risk To Urban Ecosystems

- ① Urban flooding cause loss of Urban infrastructure
- ② It causes lots of life - five people died in number.
- ③ It results in loss of economic activity
- ④ frequent rainfall results in loss of investment i.e. service industry

Critical Infrastructure

- ① It results in Breaking of power lines
- ② Telephone infrastructure is threatened
- ③ Road blocks are common due to Urban flooding
- ④ Submergence of Airport i.e. Chennai airport

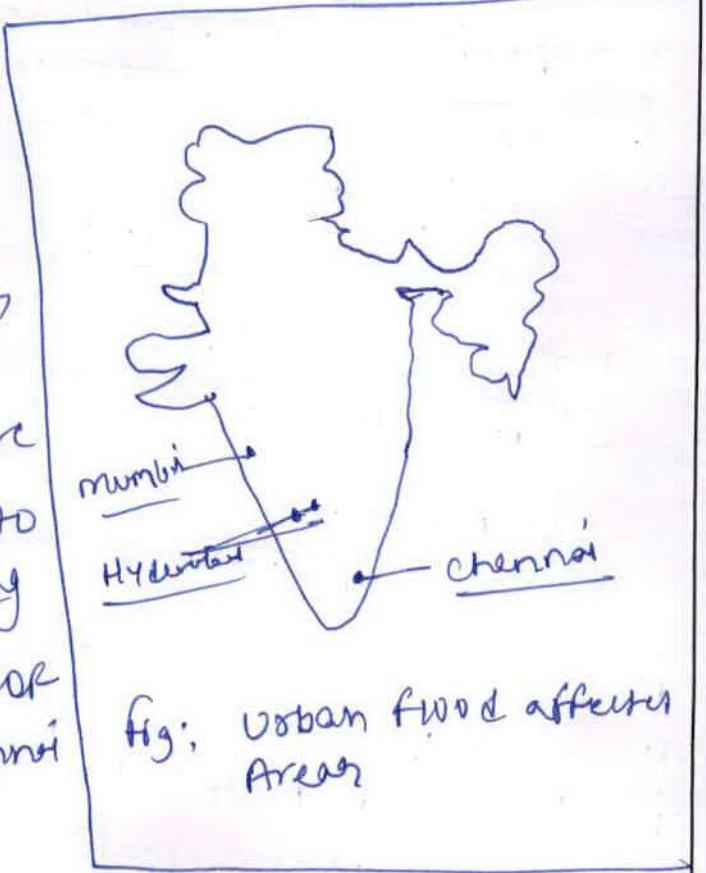

Fig: Urban flood affected Area

(5) Important Instruments like ~~so~~
Nuclear reactors are under
threat or meltdown.

Measures to Deal with Urban Floods

NDMA has suggested both Structural
and non-structural measures:

(1) Structural

- Building of rain gardens, Bioswales
in urban areas
- building city forests through Nagar Van Udyam scheme
- Drain management and waste
collection
- Building critical infrastructure
at higher level.

(2) Non-structural:

- flood forecasting through INFLOWS
- communication to people through
advisories.

To ensure that urban flooding does
not cause damage to Urban ecosystem
it is needed to take both preventive
and protective method.

Sand is a minor mineral as per
Mines and Minerals Act 1957, it
holds immense value due to
its use in construction

Sand - Economic Development

- (1) Sand is used due to its durability and provides strength to physical infrastructure.
- (2) Sand mining is necessary for house construction, road construction and other construction projects that drive growth in the economy.
- (3) Sand mining provides revenue to government which adds economy.
- (4) Linkages with Cement Industry which is one of the eight core industry

Land - Ecosystem services

- ① Sand provides Habitat to biodiversity
like Charrat in Chambal river
- ② Sand ensures maintaining of
Water table.
- ③ It helps in Purification of
water and water recharge.
- ④ Sand provides stability to river
beds.

~~Need of~~ Unsustainable sand mining - Impact

- ① Results in degradation of
river channels.
- ② Degrades habitat of species like
mugger which is major reason for their
extinction in areas like Ken River.
- ③ water table goes down in high
sand mining areas as seen in
Bundelkhand
- ④ It causes large scale green house

gas emissions.

Need of Sustainable Sand Mining

- ① Ensuring its availability for coming generation.
- ② protection of biodiversity and associated ecosystems.
- ③ Balancing the long term needs of economy.

Measures

- ① Sustainable sand mining guidelines:
 - No sand mining should be allowed above three meter depth
 - No mining in monsoon season
 - Sand mining in Abandoned River Channel,
- ② PM Rashtriya Kshetra Karyan Yojana to build social infrastructure for mining affected people.
Alternatives such as M-sand should also be explored in the interest of sustainability.

Need of Reform in urban planning and capacity

- ① Isher Judge Ahluwalia committee pointed out the need to ensure integrated urban planning - and suggested
 - Instituting all powerful mayor
 - Establishing ward Committees for planning.
 - Need of Investment in Infrastructure.

② Need of planned development such as cities like Chandigarh

→ Establishing blue-green spaces to deal with pollution, flooding etc.

→ Ensuring waste management through Indore model

③ Capacity building of Urban local bodies through finances i.e. 15th finance Committee suggested property tax reform.

④ Slum Rehabilitation program such as Dharavi Rehabilitation

⑤ Ensuring smart governance and traffic management through Smart city projects.

Urban development should be sustainable, to make life "easy" and promoting ease of living for urban people

feminist movements are based
on the ideology of feminism
which calls for ensuring equality
between men and women.

Lack of Inclusivity in feminist movement

- ① Historically during national movement enlightened men like Raja Rammohan Roy took up the cause of women.
- ② In 20th century, organizations like Women's India Association were associated with middle class women such as Dombaji Tata, Annie Besant.
- ③ In the post-independence

period women's wings of political parties were populated by the influential movement.

- (4) movement was guided by the concerns of elites i.e. women's reservation bill
- (5) Modern times, movements like #metoo also cater to the needs of urban middle and high class.

Increasing Inclusivity of women

- (1) After Towards Equality Report 1974, concerns such as women health were also taken up.
- (2) Marginalized section women also coming up with their

own organisations even as
Dalit matila sangharsh samiti

- ③ New upsurge through UN's
SDGs which calls for
o gender equality.

- ④ Issues like universal civil
Code, Triple Talaq also
came up.

Recent call of PM Modi
to ensure dignity of women
and pursue their cause will
result in further intensity in the
movement.
