ENGLISH

Higher Secondary education for a large number of students is a preparation for the University, where a fairly high degree of proficiency in English language and literature is necessary. For another large and significant group, the higher secondary education is a preparation for entry into professional education. This Course, therefore, is designed to cater to both the groups by promoting higher skills of thinking as well as language skills required for academic study and for the workplace. In this sense, this syllabus is learner-centred or need-centred.

It is expected that students have acquired the basic language skills in English by the time they come to the First Year of the +2 class. It is necessary that by the end of +2, they should be equipped with adequate linguistic competence to comprehend and appreciate texts, and express themselves in clear and grammatical English using appropriate punctuation and cohesive devices. The aim of this syllabus, therefore, is to hone all the language skills (L-S-R-W) of the students.

Instructional Materials consist of 4 textbooks: (a) Invitation to English -I (New Edition), which includes non fictional prose pieces and poems, for intensive study (b) Invitation to English-II (New Edition), which includes generes like short fiction, one-act play and biography/autobiography for extensive study, (c) Invitation to English-3, a Work Book for developing writing skills, and (d) Invitation to English-4, a Work Book for grammatical exercises.

The present syllabus lays emphasis on teacher-pupil interaction. While dealing with texts for both intensive and extensive study, teachers should encourage group activity in the classroom for 'Pre-reading', 'While-reading', and 'Post-reading activities'. They should be careful not to put any question to an individual student but to a group of 3-4 students encouraging one of them to give the answer with the feedback he/she gets from the group, so that none of the students shall feel diffident to interact. *As Invitation to English-3* and *Invitation to English-4* are Work Books, they should be worked out in the class-room.

The Scheme of Evaluation, at the end of the syllabus, specifies the allocation of marks for each skill. It should be noted that texts, prescribed for detailed as well as non-detailed study, have been allotted only 60 marks out of total 200. It would be appropriate, therefore, to devote the bulk of classroom time to *Invitation to English-3*, and *Invitation to English-4*.
