### About the Textbook

The textbook for class V has been developed keeping the following as the learning outcomes expected from the learners at the end of the academic year.

#### Academic Standards

At the end of the academic year the children are expected to achieve certain academic standards. The following are the six broad categories of the Academic Standards.

1. Listening and Responding
2. Reading Comprehension
3. Conventions of Writing
4. Vocabulary
5. Grammar
6. Creative Expression (Oral and Written Discourses)

The children should listen to, read and construct the following discourses both orally and in the written form.

1. Descriptions (objects, persons and places, experiences)
2. Conversations with at least four exchanges related to the context given.
3. Stories / Narrative containing events and dialogues
4. Rhymes / songs
5. Diary
6. Slogans
7. Posters/notice/invitation
8. Letter
9. Skit/drama
10. Essay

This textbook contains eight theme based units which are within the experiential orbit of the children. Each unit has a listening passage and two reading texts (A) and (B) along with textual exercises covering vocabulary, grammar, writing, project work etc.

#### Assessment

There are two types of assessments.

1. Formative assessment
2. Summative assessment.

## Formative assessment

Formative assessment is done four times in an academic year based on four tools given below.

1. Observation
2. Notebooks
3. Project work
4. Slip tests.

Formative Assessment is conducted for 50 marks, out of which observation, notebooks and project work are allotted 10 marks each and 20 marks for slip test.

Teacher has to assess the performance of the learners during each term. This is not a single day activity; it is a cumulative account of what has happened on a day-to-day class room transaction.

### Criteria for awarding marks under each tool:

**Observation:** The oral performance of children related to classroom activities which cover the academic standards i.e., listening and speaking, reading comprehension, oral discourses and their indicators should be considered while awarding marks.

**Notebooks:** The written performance of children related to conventions of writing, vocabulary, grammar, written discourses and the indicators written should be considered while awarding marks.

**Projects:** The oral and written performance of children which cover all academic standards should be considered while awarding marks in various stages i.e., planning, execution, analysis and interpretation of data, report writing and presentation with feedback.

**Slip Test:** This test should be conducted without giving any prior notice to children. This test should cover any two / four targeted discourses in each formative assessment. This way all the targeted discourses should be covered. This practice will help children in attempting the written discourses in Summative Tests.

The following are the evidences for awarding marks:

- Teacher's unit cum period plans that reflect children's oral performance.
- Scripts of Slip Test.

## Summative Assessment

In an academic year two summative assessments are to be conducted for 50 marks covering all the academic standards. Out of these, 10 marks are allotted for oral test and 40 marks are allotted for written test.
