Dear Mr. Jha,

I hope you will not mind my writing to you about the improper way of parking cars and two wheelers by you and your guests. Vehicles are usually parked in such a way that the front passage to the park is totally blocked or hindered and there remains no room to go into the park. You can well understand that the gate of the park is not a proper place for parking and also it is prohibited area for parking.

I request you to ensure that the parking of vehicles by you and your guests must not obstruct/block the entrance of the park.

With regards

Yours sincerely,

Ramesh jaiman
