[15]

Question 1.A:

[12]

Read the following extract and answer the questions given below :

One day, I saw the tree was being cut. I rushed to the site and begged the tree cutters to spare the trunk as it was the home of many a parrot. But I was laughed at and the tree fell with a great thud. I ran to the top end to see two just hatched chicks thrown out of their nest and smashed to death. I looked into all the nests and saw smashed eggs in two of them and one little chick in the other one. Fortunately, the little one survived the fall. I brought it home. The chick can be identified as a parrot only by the shape and colour of its beak. No feathers had come out. I carefully fed it with milk and within two weeks it began to eat bananas; and two months later, it started to fly and I let him fly away. But he would not fly long. He used to liner on the coconut trees in our compound and when I reached home from school, he would fly down and land on my head! I would show him my finger and he would jump on to it from my head and drink the milk I offered him in a little plate. By putting the sharp end of the upper beak stationaty in the plate, he would drink the milk by moving his tongue and lower beak to and fro. Then he would fly on to my shoulder and eat paddy from mypahn.

Question 2: Section A [15]

Question 2.A: [12]

Read the following extract and answer the questions given below:

But even in a poverty-free world where every man and woman would earn enough to take care of themselves and their family, there would still be situations of temporary poverty due to a sudden catastrophe or misfortune, a bankruptcy or business downturn leading to failure, or some personal disease or disaster.

A poverty-free world might see a whole group of families, locations, or even regions devastated by some shared disasters, such as floods, fire, cyclones, riots, earthquakes or

other disasters. But such temporary problems could be taken care of by the market mechanism through insurance and other self-paying programmes, assisted of course by social-consciousness-driven enterprises.

There would always remain differences in lifestyle between people at the bottom of society and those at the top income levels. Yet that difference would be the difference between the middle-class and luxury class, just as on trains in Europe today you have only first-class and second-class carriages, whereas in the nineteenth century there were third-class and even fourth-class carriages - sometimes with no windows and just hay strewn on the floor.

Can we really create a poverty-free world? A world without third-class or fourth-class citizens, a world without a hungry, illiterate, barefoot under-class?

(1) What is the extract about?

(6) What do the following words in the extract mean -

(i) Devastated

(ii) Hay

Solution: (1) The extract is about imagining a world without poverty or a poverty-free world.

(2) A poverty-free world with the help of market mechanism through insurance and other self-paying programmes, assisted of course by social-consciousness driven enterprises can take good care of people against natural disasters.

(3) According to the writer, 'the world without poverty' will be like where every man & woman would earn enough to take care of themselves & their family, save people from natural disasters, where no people can be hungry, illiterate and barefoot under-class.

(4) We can help the poor or needy people in our community in several ways. They are:

- By providing them with education for free.
- Better understanding & creating awareness in people.
- By donating our old belongings.
- By creating a group of volunteers or with the help of some NGO.

So Rosalind said goodbye to him, and waited impatiently for his return. Two O'clock came, however, but no Orlando, and Rosalind began to feel angry and disappointed.

Then two little boys came out of the garden; one of them had a large sharp knife, like that with which the girl had cut the tulips. They came straight towards the little daisy, which could not understand what they wanted.

"Here is a fine piece of turf for the lark," said one of the boys, and began to cut out a square round the daisy, so that it remained in the centre of the grass.

"Pluck the flower off said the other boy, and the daisy trembled for fear, for to be pulled off meant death to it; and it wished so much to live, as it was to go with the square of turf into the poor captive lark's cage.

"No let it stay," said the other boy, " it looks so pretty."

And so it stayed, and was brought into the lark's cage.

Solution: The daisy was bought home by these two boys. They kept the daisy on the table near the cage of lark. Initially, daisy was quiet disappointed that she has been separated from her family & friends who were in the grass. She felt that she is going to die soon. After one or two days, the lark & daisy started talking to each other. The flower used to appreciate the beauty of the nature & the bird whereas, the bird used to help the flower & sing merry songs for her. They both started spending quality time together and now the flower was relaxed & happy. She enjoyed the company of this bird. Suddenly, one day the flower had difficulty in breathing & was feeling sick. The bird saw this & tried helping the flower by sprinkling water on her through its beak. He also tried to talk to her & console her. Even after all the efforts taken by the bird the flower passed away.

Subject: Noise Pollution on Hill Road.

Dear Sir,

Through the esteemed column of your newspaper, I want to draw the attention

of the authorities towards the noise created by loudspeakers & vehicles in this colony. Not a single day passes, when one cannot escape from the noisy atmosphere. The sound of loudspeakers at the time of religious ceremonies, parties or wedding ceremonies adds to the noise in the area. People use the loudspeakers at a high volume, which harms our ears and other sensitive parts of the body. It impacts people of all age group but creates more problem for old age group & babies. The vehicular pollution too disturbs our health. The patients are unable to have a wink of sleep. The attention of the students is affected due to loud noise, & thus puts a direct impact on their health & studies.

I request the authorities to take remedial steps in this regard & instruct to use the loudspeakers at a lower pitch within the allotted time period. This will definitely bring a relief to all & the residents would be protected.

The residents of our locality would thank all the authorities, if necessary steps are taken at the earliest.

Thank you.

Yours truly,

Facebook is an excellent networking site
• Everybody can network successfully through Facebook
• Facebook allows information with people far and wide
• Facebook allows users to create a profile page which interrelates with friends and relatives

Solution: "Facebook is not a user-friendly device"

Facebook, a social networking site enables one to share a lot of personal information about oneself, which in some cases can lead to crime and kidnapping cases also. It is one of the fastest and cheapest network that leaks out the personal information in general to public. It shows the location and status including the user's photographs. What is the use of making friends in far off countries? Who cannot reach you in case of emergencies when one is unaware of the presence, love and affection of parents, friends and relatives living nearby. Just looking at the profile pictures, fake ids how can one get carried away? Youngsters leave home, city in blind search of the other person. According to me, overuse of social networking sites such as Facebook can lead to antisocial behaviour. Teens might also become the victims of cyber bullying on Facebook or engage in narcissistic behaviour themselves. Since Facebook makes it easy to find and connect with people from your past, it can also place a strain on relationships. Facebook can be a serious threat to the productiveness of both students and working people, because they become too addictive to such social sites. So Facebook hinders physical and mental growth of an individual, it is not at all a user friendly.

Speech Writing :

Imagine that your college has organised an 'elocution competition' and the topic of the competition is 'Save Trees, Trees Save'. Prepare a short speech with the help of the points given below :

Providers of human needs, ecological balance, rain showers, etc.

Solution: Good morning everyone. A very welcome to one and all present here. Today on the occasion of World Environment Day, I would like to share my thoughts about the importance of saving trees.

Trees are a great part of our planet. Humans & other life cannot survive on this planet without trees. They are a valuable gift of nature to us. Hence, we should honour the presence of trees. It has been for a long time that people have understood the importance of trees. Our country is the pioneer of the idea.

As it is always said that whatever we do to our nature they always repay us. The same way trees repay us. Trees give us a lot of benefits. Right from food, wood, houses, furniture, etc.... trees provide us with many useful things. They give us fuel to burn, fruits to eat, spices & also many beneficial medicines. They also provide us with oxygen that is quite essential for us humans. They help in reducing pollution & they are food for animals in the environment.

Now-a-days, we have promoted deforestation to a great extent more than encouraging afforestation. Due to which there are a lot of problems & consequences that are being faced by all the living & non-living things in nature. Global warming has increased for our future generations. Hence, it is an alarming time for all of us to realise & understand the importance of trees & saving our environment. Each & every citizen should feel responsible for this & take a certain initiative in several ways to promote & be a part of this cause "Save Trees, Trees save".
