

Chapter 1. Food: Where does it come from ?

Very Short Q&A

Q1: There is a lot of variation in the food eaten in different regions of India. True/ False

Ans: True

Q2: State the chief food of South India

Ans: Dosa, Idli, Sambhar

Q3: State the chief food of South India

Ans: Paw bhaji, and sea foods

Q4: The chief food of Gujarat is _____

Ans: Thepla and dhokla

Q5: Name the two ingredients involved in cooking of rice.

Ans: Raw rice and water

Q6: Some food items are cooked with many ingredients. True/ False

Ans: True

Q7: Give example of food items that are cooked with many ingredients.

Ans: Vegetable curry, dal etc.

Q8: What are the ingredients used in making roti?

Ans: Atta and water

Q9: Name the sources of our food products.

Ans: Plants and animals

Q10: List the source which provides us with egg.

Ans: Animal, that is chicken

Q11: List the source which provides us with honey.

Ans: Animal that is honey bees

Q12: Grains are animal product or plants product?

Ans: Plants product

Q13: Cream, ghee, butter and curd are animal product or plants product?

Ans: Animal product

Q14: Enlist the products that we get from plants.

Ans: Grain, cereals, vegetables and, fruits comes from plants and plants products.

Q15: Enlist the products that we get from animals.

Ans: Milk and milk products, egg, meat, chicken, fish, prawn, beef, pork etc. are the food products that we get from animals.

Q16: Name some other animals apart from cow that gives us milk.

Ans: Goat, camel, buffalo etc.

Q17: We don't eat leafy vegetables. True/ False

Ans: False

Q18: We eat _____ , stem and _____ of some plants.

Ans: Roots, stem and flowers

Q19: Some plants have two or more _____ parts.

Ans: Edible

Q20: Give example of seeds that get sprouted.

Ans: Seeds of moong or chana.

Q21: Honey bees collect nectar from_____.

Ans: Flower

Q22: Where does honey bee lives?

Ans: In bee hives

Q23: All animals have same food and feeding habit. True/ False

Ans: False

Q24: Plant eating animals are called_____.

Ans: Herbivores

Q25: Carnivores feed on both plants and animals. . True/ False

Ans: False

Q26: Give two examples of herbivores.

Ans: Cow, buffalo, goat, deer etc.

Q27: Give two examples of carnivores.

Ans: Lion, tiger, leopard etc.

Q28: Give two examples of omnivores.

Ans: Human beings, rat etc.

Q29: We get sugar from_____.

Ans: Plants

Q30: A deer eat only plant product and so, it is called _____.

Ans: Herbivores.

Q31: Parrot eats only_____ product.

Ans: Plant

Q32: Parrot eats only_____ product.

Ans: Carnivores.

Short Q&A

Q1: Give example of a plant having more than one edible part. What are those parts?

Ans: Mustard plant's seeds give us oil and its leaves are used as vegetables.

Q2: How can you make sprouts at home?

Ans: Put small quantity of seeds in a container filled with water and leave this for one day. Next day drain the water completely and leave the seeds in the vessel. Q5: Draw the diagram of a bee hive.

Ans:

Q6: Differentiate between herbivores and carnivores.

Ans:

Herbivores	Carnivores
1. Feeds on plants and plants products. 2. Cow, goat and deer are herbivores	1. Feeds on flesh of other animals 2. Lion, tiger and leopard are carnivores

Q7: Differentiate between omnivores and carnivores.

Ans:

Omnivores	Carnivores
1. Feeds on both plants and animals. 2. Example: Human beings, rat etc.	1. Feeds on flesh of other animals 2. Example: Lion, tiger, leopard etc.

Q8: Differentiate between herbivores and omnivores

Ans:

Herbivores	Omnivores
1. Feeds on plants and plants products. 2. Cow, goat and deer are herbivores.	1. Feeds on both plants and animals 2. Example: Human beings, rat etc.

Q9: What do you mean by herbivores and carnivores animals?

Ans:

Herbivores	Carnivores
1. Feeds on plants and plants products. 2. Cow, goat and deer are herbivores	1. Feeds on flesh of other animals 2. Lion, tiger and leopard are carnivores

Q10: Who all belong to the family of herbivores?

Ans:

Herbivores	Carnivores
1. Feeds on plants and plants products. 2. Cow, goat and deer are herbivores	1. Feeds on flesh of other animals 2. Lion, tiger and leopard are carnivores

Q11: Who all belong to the family of carnivores?

Ans:

Herbivores	Carnivores
1. Feeds on plants and plants products. 2. Cow, goat and deer are herbivores	1. Feeds on flesh of other animals 2. Lion, tiger and leopard are carnivores

Q12: What do you mean by omnivores and carnivores animals?

Ans:

Omnivores	Carnivores
1. Feeds on both plants and animals. 2. Example: Human beings, rat etc.	1. Feeds on flesh of other animals 2. Example: Lion, tiger, leopard etc.

Q13: What do animals eat?

Ans: Different animals have different feeding habit. Some eat green plans and plant products and are called herbivores like cow and deer. Some feed on flesh of other animals and are called carnivores. Like lion. Some animals eat both plants and animals and are called omnivores, like humans, rat etc.

Q14: Name five plants and their parts that we eat.

Ans: Following are the five plants products:

1. Apple tree -fruit
2. Wheat plant- Seed

3. Potato plant- Stem
4. Beetroot- Root
5. Spinach plant- Leaves

Q15: State all milk products.

Ans: Ghee, paneer, cheeses, butter, ice-cream, yogurt etc.

Q16: What do you mean by vegetarian food?

Ans: All food products that we get from plants and plants products are called vegetarian food products. Like cereals, grains vegetables and fruits.

Q17: What is non- vegetarian food?

Ans: Food products like chicken, meat and their products are called non-vegetarian food products.

Long Q&A

Q1: Explain different mode of nutrition in animals.

Ans: Different animals have different feeding habit. Some eat green plans and plant products and are called herbivores like cow and deer. Some feed on flesh of other animals and are called carnivores. Like lion. Some animals eat both plants and animals and are called omnivores, like humans, rat etc.
