

ASSIGNMENT FOR CLASS VIII

Social Science (Geography)

- Q1. Name the three steps involved in soil preparation.
- Q2. Give three reasons why ploughing is important.
- Q3. What are fertilizers? Write any two differences between natural and chemical fertilizers?
- Q4. Suppose you are a farmer. You have a few acres of land. For the last couple of years there has been no rain. There are no canals nearby to irrigate the fields, so how will you manage? What will you do?
- Q5. **You have recently visited the Central Institute of Temperate Horticulture (CITH). Write down your observation and how it is related to the topic i.e “Agriculture” that we have done in the class.**
