

Name ..... Date : ..... Class/Sec:II, .....

Q.1. Solve the following problems as given in the example:

- a) Meera has 25 video games and her friend gave her 25 more. How many videogames does she has now?

Sol. Meera has video games = 25  
Her friend gave = + 25  
Video games now = \_\_\_\_\_

So, Meera has \_\_\_\_\_ video games now.

- b) Squeaky has 138 nuts and his friend has 154 nuts. How many nuts do they have altogether?

---

---

---

---

- c) Rohan had 792 chocolates. He distributed 124 in the class. How many chocolates does Rohan has now?

---

---

---

---

- d) Neha had 49 apples. She ate 18 of them. How many apples are left now?

---

---

---

---

2. Show as repeated addition:

•  $4 \times 6 =$  \_\_\_\_\_

•  $7 \times 5 =$  \_\_\_\_\_

•  $5 \times 5 =$  \_\_\_\_\_

3. Find the answer:

H	T	O
4	0	4
×		2

H	T	O
2	3	5
×		2

H	T	O
2	4	0
×		3

H	T	O
2	0	0
×		4

4. Write the answer:

•  $2 \times 6 =$  \_\_\_\_\_

•  $9 \times 8 =$  \_\_\_\_\_

•  $7 \times 4 =$  \_\_\_\_\_

•  $5 \times 5 =$  \_\_\_\_\_

•  $10 \times 10 =$  \_\_\_\_\_

•  $20 \times 0 =$  \_\_\_\_\_

•  $1 \times 19 =$  \_\_\_\_\_

•  $4 \times 3 =$  \_\_\_\_\_

•  $0 \times 0 =$  \_\_\_\_\_

•  $10 \times 8 =$  \_\_\_\_\_
