II. **Read the passage and answer the questions :**

Humming birds are tiny birds that can fly forward and backward. They are called humming birds because when they fly, their wings often make a humming sound. Their tiny wings beat about 55 to 75 times each second. The biggest hummingbird is the Giant Hummingbird. The smallest hummingbird is the Bee Hummingbird, which is about the size of a bee. They live for 3-4 years.

1. Name the bird in the passage.

2. Why are hummingbirds called so ?
