Preface

Dear Children,

Now you are in Standard One. A most hearty welcome! We are happy to place this textbook **My English Book One** for Standard One in your hands.

Standard One is the beginning and foundation of education. To establish this foundation you should be able to speak, read and write in English properly. Until now you have heard English outside the home. Now you have to learn to read and write it. This textbook is full of songs, rhymes, poems, stories and activities. It will make your learning interesting and easy.

There are various types of rhymes and poems. You will be very happy to sing them and dance to them all together. You will enjoy stories also, to listen and tell. It would be great fun to make stories from the given pictures. Everyone will be very happy to listen to your experiences while chatting about pictures in your textbook.

There are many colourful pictures, letters and words you would love to learn. At the beginning, you will surely enjoy the fun of learning words and letters from pictures. Learn to read, to look and to say, to write by tracing again and again; everything is fun. There are also some language games. Learning the language in a playful manner will help to read the words, sentences and stories and to use them easily. From all of these you will have the pleasure of learning on your own, Q. R. Codes have been given to songs, stories, letter groups, picture reading and other activities too. You will definitely like everything.

At the end of the Standard One, I hope you will be able to speak, read and write beautifully. Friends, grow up while studying with joy. Wish you all the best for your studies!

Teacher's Pages

1. Rhymes, songs and poems

Teacher asks the children to see the picture and he/she sings the rhyme with actions. Children repeat and sing after the teacher with actions. Teacher gives practice to the children to repeat and sing after him, with actions. Teacher gives practice to the children individually and in groups, for proper pronunciation of the words, actions and gestures.

For the rhyme 5.3 teacher may use other animals and their sounds given on the same page.

For the rhyme 6.1 teacher can use flash cards/ word cards of the days of the week and for 6.7 he/she may use flash cards of colours.

For the rhyme 7.4 teacher demonstrates the way of brushing teeth and asks the children to follow the actions.

Teachers are not expected to translate the lines of the rhymes. Children can understand the meanings of the words through associated pictures, actions and gestures.

2. Stories / skits

Narrating a story or enacting a skit is a very important and natural activity for the development of vocabulary, idiomatic expressions and fluency and stock expressions. While dealing with the stories in the textbook, the teacher should follow the following steps.

Teacher reads the story aloud. Children repeat after him/her. Teacher demonstrates the story with the help of pictures. Teacher performs the story with the help of children in upper classes or other teachers.

Teacher reads the stories / dialogues aloud and reads the narration. Children listen carefully and repeat after him/her. Teacher assigns the roles and children perform the stories/skits with proper actions and expressions.

Teacher gives opportunity to each and every child in the class to enact the stories.

Teacher can initiate discussions in children's mother tongue about the stories and may ask them to narrate the story in their mother tongue.

3. Conversations/Dialogues

A variety of conversations/dialogues included in the textbook, will give maximum exposure and practice for spoken English.

A variety of activities employed in the textbook for conversation/dialogues include using greetings at appropriate occasions, giving introduction, seeking information, using polite requests, expressing likes and dislikes, talking about themselves, imbibing good habits, making statements, describing daily reactions/pictures/objects, giving appropriate responses in situational conversation etc.

Teacher explains the situations in the conversation with the help of the pictures.

Teacher demonstrates the conversation with the help of one or two children in the class. Teacher reads the conversation aloud and asks the children to repeat after him/her.

Teacher gives practice of the conversation in pairs/groups.

Teacher takes care that each and every child participates in the conversation and encourages them for their performance.

Teacher should see that the children always use expressions like 'Excuse me', 'Please' 'Sorry', Thank you, 'Welcome', 'It's ok', 'See you.Bye!' etc. in appropriate everyday situations.

4. Vocabulary Enrichment

'My English Book One' focuses on enrichment of vocabulary through picture reading, picture-word association activities. The textbook advocates the principle of word as a whole image approach. These words are from children's immediate surroundings, some content and structural words, naming words, action words, some word registers. (vegetables, colours, fruits, numbers etc.)

While handling/dealing with different types of vocabulary enrichment activities, the teacher should use :

- maximum flash cards with pictures
- word stripe charts
- introduction of phonic approach and visuals

Teacher focuses the children's attention on the sounds of the letter in the words. (Initial, middle and final sounds, cluster sounds)

Teacher introduces different words with the help of the pictures, actions, things/objects.

Reads the words aloud and children repeat after him/her.

Teacher prepares sets of flash cards to introduce, to give practice, revise and evaluate the new words.

The teachers should use the words as a whole image and they should not give practice of individual letter in the word as spellings. The teacher should give the practice until each and every word is learnt as a whole image.

Activity of vocabulary development

For the practice of new words, following types of activities are incorporated in the textbook.

Listen and repeat.

Listen and say.

Look and ask.

Listen and find.

Say faster and faster etc.

5. Language Games

Maximum exposure to the language can be given through innovative types of 'Language games' at initial stage/years of language learning. Language games help children learn a new language through playway approach and fun. In this book some interesting language games are given.

Throw the Ball

The teacher asks the children to stand in a circle. He/She throws the ball to a child and asks the child to tell it's name. The child who catches the ball, tells its name. Then throws the ball to another child asking the same question. The game will continue until all the children get a chance to answer.

The teacher may use this type of game for other questions. This game can be conducted on the playground, also.

The Game of Addition

This game is given for simple sentence learning and revision of learnt words. This activity is to be employed in a group of children. The first child tells about his likes, the second repeats the first sentence and adds his/her own liking. At each stage the next child goes on increasing/adding his/her likes in some categories of word. (Fruits, vegetables, colours, games etc.) Teacher may use this game frequently for the revision of newly learnt words in a particular category.

Be quick

Teacher asks the children to listen to the words from a particular category (vegetables) and add other names of vegetables to the list. Use the game to prepare the lists of other categories also such as fruits, colours, animals etc.
