Pressure groups refer to informal groupings of people with tactics of pressurising the govt to achieve their desired goals. India has seen various environment pressure groups advocating environmentalism.

Environment pressure groups - enhance public participation & responsiveness

-) Input the demands of the tribal who are dependent on environment -
Eg) Narmada Bachao Andolan
-) Raise voice to protect the sanctity of the protected areas & garner intellectuals & public support. Eg Save Silent Valley Movement

-) Raise consciousness among public regarding climate change impact
Eg- Frudays for Future
-) Give policy inputs on govt policies and schemes to make them more relevant
Eg- CPR providing suggestions on EPA 2020
-) critiquing govt policies and mobilising public opinion, collecting data.
Eg- pressure groups on Forest conservation Amendment
However, there are issues.
-) Agenda driven pressure groups hamper development in name of environment
Eg- Sterlite copper plant in Tamil Nadu.
-) Prevent energy security by propagating myth. Eg public protesting against Kudankulam plants

Pressure groups must be soft regulated as per Vijay Kumar Committee to ensure A21 & A48 Clean Environment is assured to all

The acknowledgement of sex work as a profession by SC breaks the taboo of dignity and stereotypes around sex workers, giving them equal dignity. However certain issues persist

Issues for sex workers

- 1) Article 19 of Constitution provides reasonable restriction on movement of sex workers, on ground of public health, making them appear as threat.
- 2) High amount of trafficking & forced prostitution for women. This verdict can increase women trafficking.
- 3) Does not address the rehabilitation

of sex workers as they find barriers to access other professions.

- Does not address the issue of contraceptives and STDs which sex workers are susceptible to.
- Stereotypes & prejudices against sex workers as they are seen as "polluted", "unethical".
- No formal social security net & welfare benefits compared with other professions.

Way Ahead for Equality

- Moulin Rogue Model of sex workers where formal prostitution takes place keeping the rights of sex workers at centre.
- rehabilitation of sex workers & their children through civil society like Manthan.
- Stand Up India - to promote entrepreneurship

Sex workers equality & securing of basic rights is a test to ensure women led development which India envisions.

District Legal Services

Authorities came as a result of NALSA Act 1987 to provide free & legal aid as per the obligations of welfare state envisaged under Directive Principles of State Policy.

DLSA - free legal aid & disseminating information

-) provide access to justice to vulnerable communities like SC, ST, Transgender, increasing their well being.
-) Reduced legal hurdles & complexities by simplifying the procedure
-) Upheld their Right to free & fair trial as per Masjid-e-Shab-e-Aarz case

- Helped to grassroot penetrations of legal knowledge among the population

persist

However issues

Issues

- Judicial pendency & trials reduce the access & effectiveness of DLSA. (4.4 crore cases pending).
- Complex nature of laws with dominance of English reduces effectiveness of DLSA to spread legal awareness.
- Poorly trained & incompetent lawyers sign up for DLSAs reducing efficiency.
- Inequity in justice, as poor go for DLSA while rich hire expensive lawyers.

Making serving under DLSA mandatory for every law graduate in vernacular medium of DLSA as a part of their duty can make grassroots justice effective through Peers

Collegium system refers to
a group of judges - 4 seniormost judges of
Supreme Court & IJTI to look into
appointments, transfers of judges in
Judiciary. Evolved through the 3rd Judges case.

Collegium system - crisis of legitimacy

-) opaque functioning of collegium has led to questioning of its legitimacy
-) against the principle of natural justice - Ambedkar said "No Império in an Imperium"
-) skewed representation in women, SC, ST representation is very low.
-) Judicial pendency & inefficiency led to questioning of collegium system -

- CJ's roster power - power to allocate cases to judges might lead to discretion of CJ

Thus these issues made the Law Minister a public question the legitimacy of Collegium.

However Collegium has ensured widest benefit as

- Independence of judiciary as executive cannot influence decision of collegium
- Forth Judges case - ~~also~~ Judiciary is a basic structure doctrine.
- Help to keep executive accountable through Article 13 (Judicial review) through non-partisan judges.
- Uphold the Basic structure of our constitution.

The Executive & Judiciary must recognise & devise a new mechanism collectively to ensure people's trust in Judiciary & generation of powers remain.

The colonial era bureaucracy cannot meet the challenges of present day world which is married with AI, creative destruction, Blockchain and e-governance. Thus the past era of recruitment & standardised training reform must be upgraded.

Reforms must go beyond recruitment & standardised training

-) ensure specialised training to churn out domain specialist for governance.
-) Reduce colonial hangover & idiotocracy through value education training as per Alagh committee

-) to usher in ~~a~~ technocrats through lateral entry and specialist generalists
-) Improve representation from women and rural areas to reduce gender & rural-urban gap through women led development
-) Partnering with NGOs, civil societies to deal with climate change and food security issues. e.g IPFRI, CPR to collab with govt.

However, there are challenges to realize this.

A comprehensive reform of civil service by envisioning a new model of public service delivery can ensure Platinum Government Have Governance

socio - economic services and goods are marred by the issue of financing leading to poor welfare for all.
In such scenario, social impact bonds are true game changers to improve socio-economic sector.

Outcome based finance models - potential to change

- Ensures that people are stakeholders, as greater returns assured when greater impact is made.
- Social impact bond makes investors interested in social venture, thus mentoring & supporting for its success.

- Leads to delivery of result at grassroots level due to efficient functioning.
- Outcome based financing makes financing contingent on successful outcome, thus organisation becomes more committed.
- Prevents leakage of funds & money laundering as funding is done through formal channels.

Issues :

- Regulatory burdens as SEBI not yet clearly defined what social impact investment is.
- Can hijack the agenda of organisation by investors for other gain.
- Can promote anti-national activities through anonymous funding by money laundering.

The Female Labour Force
Participation rate is meagre 28% while
52% of STEM graduates are women,
indicating a big gap that needs to be
addressed

Why the gap

-) Educated unemployment as women are not willing to work for jobs below their qualification (Middle Class)
-) Middle Class women are forced to stay in homes as their husbands earn a good amount of salary.
-) Patriarchy seeing women as homemakers & below the dignity of man to send women to work

- Lack of women safety infrastructures, especially at night
- sexual harassment of women at workplaces deter women participation
- Early marriages soon after graduation & early pregnancies reduce WLFPR.

How to bridge the gap?

- KIRAN, women in STEM to incentivise women for higher research in pure science
- Establishment of CCTV cameras, women police stations to ensure safe space.
- Free transportation (TN model) increases women working as commuting is accessible
- Work from Home & Hybrid working to break the glass ceiling, Menstrual leave also.

Initially India's concern with West Asia was for energy security, but recent agreements and visits by leaders show broadening of horizon in India-West Asia relations.

Geopolitics to Geoeconomics

- Rise in trade and investment deals with West Asia Eg → CEPA with UAE
- agreement to trade in Rupee - UAE
- focus on connectivity projects and co-development of projects - Eg Chabahar in Iran.
- Increasing investments from Gulf to Indian Market. Eg- Saudi Arabia's promise of ₹ 20bn investment.
- Focus on space sector through collaboration with ISRO. Eg - UAE-ISRO collaboration

-) cooperation in diversifying supply chains and green energy finance.
-) DPL and UPE in Middle East - by India.
-) India MoU with UAE on development of blue economy, Diamonds & pearl industry.

Thus India has shifted the focus from securing seas, oil resources and choke points to securing economic interest through foreign policy.

Issues

-) China's clout in region → China brokering Iran-Saudi Rapprochement.
-) Terrorism & instability in Middle East
-) Pakistan factor can be an irritant in GCC countries & Middle East members of OIC.
-) Violation of Human Rights for Indian labour.

The role of the Competition Commission of India (CCI) is significant in furthering healthy competitiveness aimed at inspiring stakeholders to innovate and augment effectiveness. Comment. (Answer in 250 words)

15

Competition Commission of India

is a quasi-judicial statutory body, established under Competition Commission Act to ensure free and fair market competition in India.

Role of Competition Commission

- Prevents anti-trust behaviour by corporates providing a healthy working competition.
- Prevents formation of cartels and monopolies by looking at merger and acquisition.
- Looks at IPR violations, copying to foster innovation in working sector.
- Gives sufficient environment & conditions

to small and Medium Enterprises to compete
with MNCs

- Looks at anti - Profiteering activities under current FST regime.

It therefore promotes
healthy competition and inspires innovation as

- fair grounds for competition
- firms in a bid to cut costs ethically, try
to look for innovations
- Boosts Research & Development funding by
firms

Limitations in CCI

- Time delay in rewarding the verdict on
anti-trust issue.
- Article 142 & 136 need to appeal the judgements
of CCI to Supreme Court, delaying the case.
- Appeal to Permanent Court of Arbitration in
Singapore, diluting CCI's verdict
e.g. Google's appeal to PCA ²⁷

-) Use of money power by big MNCs to hire specialist lawyers against small SMEs.
-) Lack of capacity and increasing vacancies as per P B Mehta & Devesh Kapur in "Rethinking Public Institutions in India".
-) Complex IPR laws and information asymmetry reduce the accessibility to CCI.

Way ahead

- Vernacular medium & simplification of corporate laws.
- CCI's decision to be made final & binding
- Opening of new zonal branches of CCI filling the judicial pendency vacancies to reduce pendency.
- Information awareness & campaigns to popularise & democratise CCI.

CCI's role is to ensure a conducive environment for fair business to attract investment for economic growth

Media is referred to as the "Fourth Estate of the Democracy", playing a crucial role in democracy's upkeep.

However use of paid news is something which hampers free flow of information.

Menace of paid news.

- Paid subscription of news websites.
- Sponsorship of programmes by parties or organisation for vested interest.
- Corporate ownership of media houses.
- Large scale funding of media houses by vested interests.

Why paid news.

To keep up with updated technology

use of printed media reduces revenue generation of media

To generate revenue to pay the employees, investors

Menace of paid news - gets ugly during election

Supreme Court in its

verdict had stated that Right to vote is a form of right to expression under Article 19. Right to expression (a) can be exercised only when people have access to free flow of information. Information's flow is biased or blocked when Paid news comes in.

- used by political parties to manipulate people's choices.
- can flare communal tensions & disharmony in society.
- can flout Model Code of Conduct & display election symbols near booths.

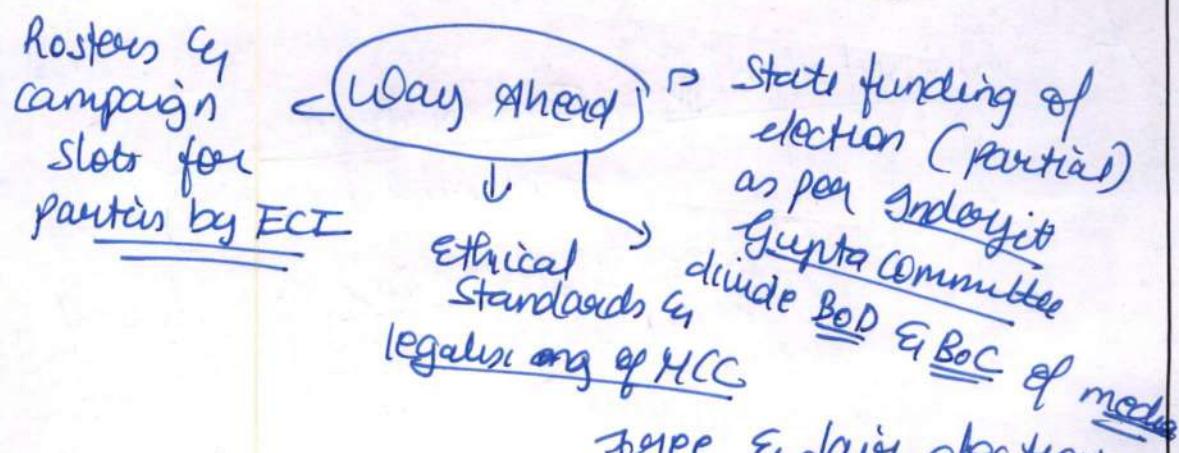

Need for making paid news an electoral offence

Paid news must be an electoral offense and disqualification ground under RPA 1951.

- Ensures free & fair elections which

in a basic structure of Constitution as per
Pondra Gandhi vs Ray Narain case -

- Prevents manipulation of voters as voters can exercise their rights without any undue influence.
- Detracts political parties and ~~as~~ candidates from putting malicious content on media.
- Prevents communalisation of politics as hate based mobilisation would be reduced.
- Gives equal chances to everyone to win.
- Reduces the role of money power in politics thus reducing criminalisation of politics.
- Gives greater power to ECI under article 324 to take action against political parties.

and a free media would ensure a quality Parliament ensuring executive accountability

Doctrine of Essentiality is a Judicial doctrine pronounced in the Lalitha Mutt case whereby the judiciary has the power to look at the essentiality of a practice in maintaining the fundamental nature of religion.

Doctrine of Essentiality

- Judiciary has power to see whether certain practice protected under Article 29, 30.
- to see resolve clash b/w Article 29, 30 and Article 14, 15, 16

evolved through → Tehonova case (By Joe Emmanuel vs UOI)

- ↳ Multani Singh Case → allowed beard for Sikhs in Army but not Muslims
- ↳ Sabarmati case

- ensured social dignity and good standard of living for people . Eg- SC in Dawoodi Bohra case declared social ostracisation not an essential religion practice
- Promoted equality of status as per Article 14 → SC in Tribal Yatq case gave equal status to women
- Reviewing of outdated practices which are against human health and morality
Eg- SC reviewing Female Genital Mutilation in Dawoodi Bohra.
- Prevented misuse of religious practices, promoting its sanctity.
Eg= SC in Narasu Appa Mali declared bigamy as non essential
- Promoted multiculturalism in society by upholding diversity & taking note of occulting circumstances.
Eg Multani Singh Case → ~~SC~~ Sikhs allowed beard, helping in their integration

Doctrine of Essentiality - issues

-) Judges not competent enough to declare which laws fundamental for religious existence as they don't have the knowledge.
-) Used by communal groups to create anxieties among minority communities to fan communal tensions.
-) Violation of Article 29, 30 providing special rights to minorities to practice, profess.
-) Judicial overreach as personal laws & religious laws are formulated by Parliament
-) Fear of judicial tyranny as per P.B Mehta due to unchecked power, due to judicial doctrine.

Doctrine of Essentiality must be complemented with efforts from people to ensure coexistence of individual & group rights as envisaged by Constitution.

According to Thomas Jefferson, "That government is the best which governs the least". Keeping the spirit of Minimum govt, Maximum governance, the EAC advised to limit the size of govt.

Current status of govt

- multiple institutions having same mandate causing policy paralyses.
- lack of governance structure in emerging areas like AI, Data protection etc.
- large number of people manning multiple levels of bureaucracy leading to delays.
- overregulation of Govt in multiple sectors

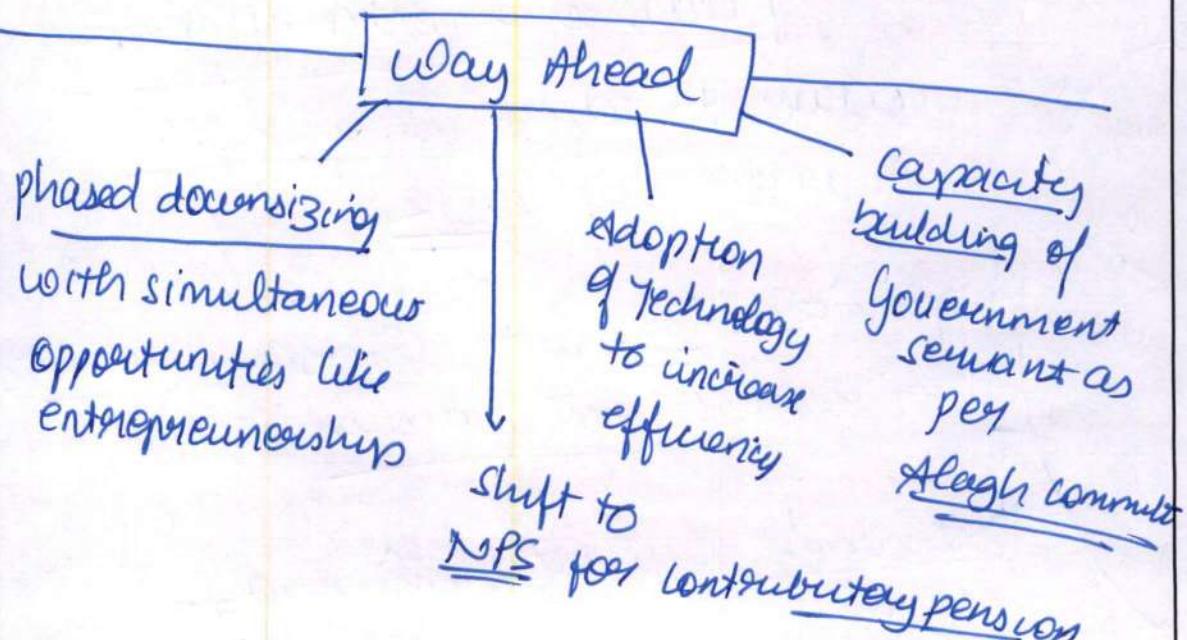

According to such views, FM Nirmala Sitharaman had declared "The business of govt is to not do any business but engage in governance only.."

Urgent need to limit government size

- Reduces revenue expenditure as salaries, pensions payments reduced.
- Increased productivity among employees as their marginal productiveness reduced.
- Decluttering of Bureaucracy leads to simplification, eliminating red tapism.
- Stops the culture of working in silos as greater cooperation & synergy created.
Eg- Yath Shakti Plan
- enables governance & admin in new critical areas like AI, blockchain, 3D printing
- fosters adoption of technology to complement human resource.
- Makes governance more accessible to people due to simplification

Issues with downsizing

-) Already a shortage of around 1300 IAS officers as per Department of personnel & training leading to delay in governance.
-) Reduce the P2P interaction in governance.
-) Reduce the adversity and uncertainty of govt structures.
-) increased competition and unemployment as govt posts are coveted by Indian youths.

Yes, Downsizing of govt must initially happen at cabinet & Ministerial level, setting a role model for different tiers to downsize ³⁷ their size.

Institutions of Eminence was

a scheme which sought to give phased manner of investment payments as an incentive to increase their infrastructure to be in the TOP 100 global universities

IoE - conceived to develop world class centre of education

- M → incentives to set up research labs with partnership of CSIR
- O → promote MOUs with foreign universities for research collaboration
- W → installment payment from govt to improve digital infrastructure
- I → Focus on curriculum updation; keeping with the global standards

However, the fact that none of the 6 IOE selected (Delhi University, IISc Bangalore, T.I.O Institute etc) featured in Top 100 or 200 of QS World Ranking. It shows it is yet to become a game changer.

Reasons for ineffectiveness of IOE

- Discrimination between private and public Universities as private universities find hard to overcome red tapism & stringency outcomes
- Institutes like T.I.O Institute have infrastructure bottlenecks reducing the effectiveness of schemes
- Private institutes charge high fees from student to match operating cost, thus reducing the penetration of benefits till grassroots.
- Recent entry of foreign universities in India reduced the MoU & cooperation with Indian universities

- Difficulty in setting up research labs as funding is inadequate to commensurate the cost.
- Delay in updation of curriculum, especially in govt universities due to slow decision making.
- Doesn't address reason for high dropouts

Today ahead

- UGC to oversee & penalize those institutes who don't oblige with the regulation
- Syllabus update
- Use of National Research Fund to foster original research for better rankings
- Use of Social security Exchange, Education Bonds to fund infra in Higher Education

IoE revamped can ensure our universities top the world rankings depending on quality human resource

Digital Public Infrastructure

refers to a host of government services & goods which is provided through digital means to public. DPI is the most important pillar of Inclusive growth and E-Governance.

DPI- benefits

- Overcomes inclusion errors through AADHAR authentication. Eg AADHAR authenticated e-PoS for Ration
- Increases convenience for the public as they receive welfare benefits directly in their bank without need to go anywhere. Eg- Direct Benefit Transfer, UPI payment
- Overcomes accessibility barriers as disabled can participate in governance. Eg- MyGov portal allows for governance ⁴¹ redressal

-) Increases accountability and transparency
when data is put out publicly -
Eg - NITI Aayog & NDAP showing all data
-) Increases access to credit, improving
investment in India, reducing debt trap
Eg - Open Credit Enablement Network (OCEN)
-) Promotes business & SMEs by ensuring free &
equitable access to markets. Eg ONDC
-) Ensures public participation by inputting
demands & suggestion. Eg EIA policy
suggestion through My Govt. In..
-) Public welfare through governance redressal
Eg - CPGRAMS

Issues with DPI

-) Poor internet connectivity reduces access
to DPIs especially rural areas,
-) Domination of English & Hindi as

a barrier for other language speakers.

-) Difficult User Interface and Digital Illiteracy reduce the penetration of DPIs
-) Poor data protection & Cybersecurity measures lead to breach of data e.g. COIN data leak
-) Frequent Internet shutdowns affect DPI access

| DPI to be made 'more equitable'

- Bharat Net & e-choupal to ensure Wi-Fi access to all
- Digital Shiksha Abhiyan by NGOs like ISPIRIT
- Strengthening of Cyber security norms as per B.N. Srikrushna Committee
- C-Bhashani & National Translation Mission to translate content to Vernacular medium

DPI 2.0 on equitable basis

can ensure India obliges the commitment of welfare state as per DPSP.

Recently, Rajasthan introduced "Right to Health" Bill to ensure universal free access to healthcare for all.

However, this isn't enough as India's health care is marred by various problems.

Right to health

→ Anyone can approach any hospital for general or specialised need

→ A Board constituted to oversee the implementation

→ No one can be denied treatment

→ Right to compensation put hospital post treatment

GAPS in Indian health sector

Social gaps

→ Inequitable access to health care due to caste discrimination, untouchability

- ↳ Patriarchy relegated critical areas like Menstrual health, sexual health to the sidelines.
- ↳ Poverty reducing access to health due to out of pocket expenditure (70% in India).

Financial gaps

- ↳ Meagre 1% of GDP invested for Public health care as per WHO Target.
- ↳ Poor private investment in Geriatric health, secondary health care.
- ↳ Poor insurance coverage (only 3%), leading to out of pocket expenditure.

Infrastructural gaps

- ↳ Low no of doctor per patient (0.9/1000) compared to China's (2.3/1000).
- ↳ Poor hygiene & equipment maintenance in public hospitals.
- ↳ Poor preventive and palliative care.

put burden on your health system.

- Poorly equipped and unmanned PHCs in districts reducing effectiveness of primary health.

Right to Health fails to address all the above gaps. It tries to fill the financial gap by making it accessible, but infra & social gaps remain.

Right to Health - to make more effective

- Increase GDP allocation to at least 2.5% for healthcare
- focus on PPP cooperation on Primary, Preventive Healthcare - Kelkar committee
- District Health Knowledge centre as per NITI Action Report on Health.
- Increasing numbers of beds & doctors through more infra building

Right to Health must be a

a grand success & ensure Right to Health

The Transgender or "Third gender" even after release of National Transgender Policy 2019, has not been mainstreamed & integrated into Indian society.

Legislative nudge

National Transgender Policy 2019 provides a legislative nudge by

-) Explicitly recognising transgender, thus giving legal recognition
-) Mandatory to give transgender as an option in various forms.
-) Discrimination based on gender punishable thus deterring people.

However - due to Social mindsets & issues transgender

have not yet engendered

Issues

- 1) National Transgender Policy 2019 ~~req~~, calls for certifications by medical board, denying their right to sexuality, means of asserting their identity
- 2) Transgenders forced onto prostitution due to lack of dignified job
- 3) Prejudices & stereotypes of transgender as criminals and beggars
- 4) Lack of transgender friendly toilet & public spaces making them inaccessible
- 5) Denial of adoption rights and reproductive rights, making them lonely in old age
- 6) Culture, media humiliating them through portrayal as "Hijras" reducing their dignity

- Privatization of their issues
- Lack of representation in lawmaking, judiciary and educational institutes.

The legislative judges fail to recognise these social realities as per Amartya Sen, thus reducing their capabilities.

Way ahead

- Justice CJ Deepak Misra - Affirmative action for Transgenders by identifying them for reservation
- Employment opportunities through Stand Up India, Kochi Metro model.
- Third gender friendly toilets under Swarachetna Bharat Abhyans.
- Use of NGOs & Civil society to rescue them & spread awareness. Eg Mataetha in Delhi

Sabha Saty, Sabha Vashwas

Sabha Vikas can be achieved when the 49
1st, 2nd & 3rd genders are on same pedestal.

Shanghai Cooperation Organisation
is a multilateral grouping with major
members from Central Asia, China, Pak,
India. India recently hosted virtual
summit of SCO, being the chair of SCO

Factors making India difficult
to realise expectation from SCO

Strained ties with Pakistan and China

- ↳ New Delhi declaration prevented a consensus document on SCO emerging due to strain with Pak & China
- ↳ Pak-China axis threatening a two front war for India reducing India's reliance
- ↳ Expectation on terrorism & terror

financing not fulfilled as Pak & China block
India's attempt to call out state sponsored terror

- ↳ Connectivity from Central Asia hampered as Pakistan block, TAPI & China aggressively interests in Eurasia.
- ↳ Reduced trade potential & development as the 3 countries put restrictions on each other for security interests.
 Eg → FDI from land based countries monitored

However, there are other factors as well.

- SCO seen as Anti-West and Anti-USA thus uniting America's wrath.
- increased animosity among central Asian members reduce bloc's effectiveness
 Eg - Kyrgyzstan & Uzbekistan in borders.
- geographical distance a barrier for close cooperation with SRO countries

-) Russia-Ukraine war. Reduced the effectiveness of SCO due to sanctions on Russia.

However, India has fulfilled many of its national interest through SCO.

-) SCO's avenue provides India strategic autonomy to balance against West.
-) C. Jayaraman said "India simultaneous US visit & SCO summit shows capacity to balance"
-) RATS provides joint cooperation & info sharing on terrorism
-) promotes collaboration & consultation on connectivity projects e.g. INSTC

SCO must be leveraged by India to achieve national interests. A comprehensive integration of SCO + INDO PACIFIC + G20 can ensure India becomes a Vishvaagya.

Anthony Blinken, the US Secretary of State commented that India after shifted from Geopolity to Geotechnology, US has shed the hesitation to share critical technology with India." iCET b/w USA & India is a manifestation of same

Initiative on Critical & Emerging Technology

- iCET to ensure collaborations b/w USA & India on semiconductor; AI, robotics, drones etc.
- enables technology transfer & co-development.
- scope for public - private partnership

iCET long overdue transformations on technology partnerships

- Represents a shift where USA was hesitant to share cryogenic technology to where USA is keen to equip India
- ensure co-production and co-development of technology through initiatives like INDUS**
- promote domestic manufacturing of critical optical jet engines like GM, GE engines
- indigenous production of critical tech like semiconductor. Eg Micron investing in Gujarat
- Helps USA & India to balance Chinese dominance & assertiveness in India
- complements other efforts like

DUAD | critical technology supplies group

- Helps in resource and supply chain diversification which both countries aim for.

F Issues

- Fear of US technology reassessed by Russia due to close Indo-Russian defense cooperation.
- US CHIPS Act → gives power to US semiconductor industry to monopolize & attract investment in US, defeating iCET.
- IPR issues for USA - US wants IPR regime & evergreening of patent which India is against.
- Unpredictability in US Foreign policy as per Marsh v Pant - US giving \$ 450 mn to Pak for F-16.

The 2+2 Ministerial conference and iCET reviewed can ensure India truly becomes Major Defense Partner of USA.
