

CLASS - III - EVS WORKSHEET

Ln : 19 – Living Things

I) Name the following :

1. Any two living things.
a. _____ b. _____
2. Any two non-living things.
a. _____ b. _____
3. Any two animals living in water.
a. _____ b. _____
4. Any two animals living on land.
a. _____ b. _____
5. Any two animals that crawl on land.
a. _____ b. _____
6. Any two animals that have horns.
a. _____ b. _____
7. Any two food items we eat also eaten by animals.
a. _____ b. _____
8. An animal that lives in water and it is also a mammal.

II) Fill in the blanks :

1. We find _____ and _____ things in our surroundings.
2. Living things show _____.
3. Animals and human beings have _____.
4. _____ can move, but _____ cannot move.
5. A _____ grows into a man or woman.
6. _____ things need food and water.
7. Plants prepare their own food by the process of _____.
8. _____ is required for photosynthesis.
9. Human beings breathe through _____.
10. _____ breathe through pores in leaves.

III) Write whether the given words are living or non-living thing:

1. Man - _____
2. Parrot - _____
3. Teddy bear - _____
4. Flower - _____
5. Ball - _____
6. Cat - _____

IV) List five characteristics of living things :

1. _____
2. _____
3. _____
4. _____
5. _____

V) Unscramble the given letters :

1. A mammal which lives in water _____. (H W A E L)
2. I breathe through my gills _____. [I F H S]
3. I live both on land and water _____. [R F G O]

Read all text book exercises, work done in the note book.

Ln : 20- Nature's Gifts**I) Fill in the blanks :**

1. _____ is the uppermost layer of the earth's crust.
2. Air, water and soil are important natural _____.
3. The _____ is the only planet to have water in it.
4. _____ treat sick or injured animals.
5. The Government of India has started _____ to protect the tigers.

- We grow different crops in different types of soil. []
- Plants do not need soil to grow. []
- We must take care of living things in our surroundings.[]

III) Match the following :

- | | | |
|----|-----------------------|---|
| 1. | Banging furniture | a) Protection of animals [] |
| 2. | Wildlife Sanctuaries | b) Air pollution [] |
| 3. | Veterinary doctor | c) Noise pollution [] |
| 4. | Burning garbage | d) Water pollution [] |
| 5. | Wastes into the river | e) Injured animals [] |

Ln : 21- The Earth and the Moon

I) Fill in the blanks :

- We live on a beautiful planet called the _____.
- The earth revolves round the sun from _____ to _____.
- Three-fourths of the earth's surface is covered with _____.
- The _____ of the earth causes day and night.
- A heavenly body that revolves round a planet is called _____.
- The moon revolves round the earth once in _____ days.
- The moon reflects the light of the _____.
- The earth takes _____ hours to complete one rotation.
- The movement of the earth round the sun is called _____.
- The earth gets its light from the _____.

11.	The group of stars form interesting pattern in the sky is called_____.	
12.	The movement of the earth on its own axis is called _____.	
13.	_____are caused due to the revolution of the earth.	
14.	The _____is the natural satellite of the earth.	
15.	Every night the moon appears to change its _____.	
16.	The earth rotates on its own _____.	
17.	The earth takes _____days to complete one revolution.	
II)	<u>Write True or False</u>	
1.	Axis is an imaginary line between North Pole and South Pole. []	
2.	The earth takes 24 hours to complete one revolution. []	
3.	The earth is round like an orange. []	
4.	The globe is the model of the earth.[]	
5.	The moon reflects the light of the earth.[]	
6.	The earth spins on its axis and revolves round the sun. []	
7.	The earth is slightly flat at both the poles.[]	
8.	The sun is the natural satellite of the earth. []	
III)	<u>Name the following :</u>	
1.	Two movements of the earth. a. _____ b. _____	
2.	Four phases of the moon. a. _____ b. _____ c. _____ d. _____	
3.	Any three constellations. a. _____ b. _____ c. _____	
IV)	<u>Match the following :</u>	
1.	Constellation	Day and night ()
2.	Rotation	Orion ()
3.	Imaginary line.	Moon ()
4.	Satellite	Axis ()
5.	Revolution	Planet()
6.	Earth	365 $\frac{1}{4}$ days ()

Ln : 22- Our Body

I) Fill in the blanks :

1. The human body is made up of different kinds of _____.
2. We have _____ sense organs.
3. We taste with our _____.
4. All sense organs send their own messages to the brain through _____.
5. _____ system protects all the organs inside the body.
6. The food from the mouth goes to the _____.
7. The air which we breathe out, contains _____ and _____.
8. Our body uses _____ to burn food and release energy.
9. The chest _____ when we breathe in and _____ when we breathe out.
10. Circulatory system consists of the _____ and _____.
11. The vessels taking blood away from the heart are called _____.
12. The _____ bringing blood towards the heart are called veins.
13. The _____ supplies food, oxygen and other materials to all parts of the body.
14. _____ System consists of the brain and the nerves.
15. We _____, _____ and _____ with the help of our nervous system.
16. The _____ controls all the organs of the body.
17. Excretory system throws out the _____ of our body.

II) Write 'True' or 'False':

1. There are eight systems in our body. []
2. We always breathe through our mouth. []
3. More than two – thirds of our body is made of water. []
4. Cells of the same kind make a tissue. []
5. Digestive system help us to remove waste from our body. []
6. Kidney, lungs and skin help to remove waste from our body. []
7. There are 206 bones present in our body. []

III) Name the following :

1. Eight Systems present in our body.
1.

	2.														
	3.														
	4.														
	5.														
	6.														
	7.														
	8.														
2.	Five sense organs. 1. _____ 2. _____ 3. _____ 4. _____ 5. _____														
3.	Name any two organs present in each system. 1. Digestive system : a. _____ b. _____ 2. Respiratory system : a. _____ b. _____ 3. Ciculatory system : a. _____ b. _____ 4. Nervous system : a. _____ b. _____														
IV)	<u>Match the following :</u>														
	<table> <tr> <td>1. Liver</td> <td>Receives Messages [_____]</td> </tr> <tr> <td>2. Diaphragm</td> <td>Air Carrier [_____]</td> </tr> <tr> <td>3. Brain</td> <td>Digestive system [_____]</td> </tr> <tr> <td>4. Respiration</td> <td>Release energy [_____]</td> </tr> <tr> <td>5. Artery</td> <td>Respiratory system [_____]</td> </tr> <tr> <td>6. Sense organ</td> <td>Carbondioxide [_____]</td> </tr> <tr> <td>7. Air we breathe out</td> <td>Tongue [_____]</td> </tr> </table>	1. Liver	Receives Messages [_____]	2. Diaphragm	Air Carrier [_____]	3. Brain	Digestive system [_____]	4. Respiration	Release energy [_____]	5. Artery	Respiratory system [_____]	6. Sense organ	Carbondioxide [_____]	7. Air we breathe out	Tongue [_____]
1. Liver	Receives Messages [_____]														
2. Diaphragm	Air Carrier [_____]														
3. Brain	Digestive system [_____]														
4. Respiration	Release energy [_____]														
5. Artery	Respiratory system [_____]														
6. Sense organ	Carbondioxide [_____]														
7. Air we breathe out	Tongue [_____]
