 - Increased awareness about
British discrimination
 - Many leaders who later formed
INC were affected by Gagging Act

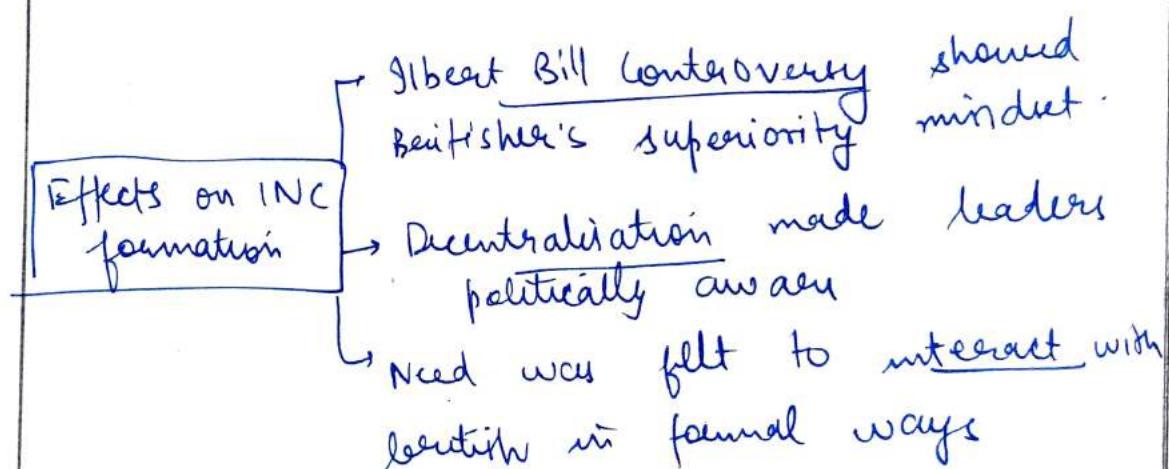

Lord Ripon's liberal policies :-

गांधी जी ने विभिन्न परिस्थितियों और समस्याओं जिनमें निपटने की आवश्यकता थी, के अनुकूल समय-समय पर अंग्रेजों के विरुद्ध संघर्ष की अपनी विधियों में परिवर्तन किया। विशेषण कीजिए।

Gandhiji's greatness as a public figure lies in his non rigidity and regular updation of his methods which he used to fight against British.

Varied methods of struggles used by Gandhiji :-

- ① Leading from the front to motivate others - in initial stages

औद्योगिक क्रांति और विश्व के विभिन्न भागों में साम्राज्यवाद के आरंभ के मध्य मंबंधों को स्पष्ट कीजिए।

Industrial revolution is proliferation of machine based industries post ~~1750's~~ 1750's. Imperialism is expanding sphere of influence by controlling polity and economy of other countries.

Relationship between industrial revolution and imperialism evident :-

- ① Dependence on same developments.
 - ↳ Transport ex. Steam engine
 - Increased mobility of goods
 - Increased mobility of administrations
 - ↳ Communication
 - flow
 - increased information
 - ↳ Innovations
 - needed for IR
 - ↳ increased inequality among nations where innovations took place v/s others

② I.R. depended on two major things

↳ Raw material ⇒ Colonies provided both
↳ Market of these
 E.g. India, South America.

③ To reap complete benefits of I.R.
need is to build monopoly in I.R
done by keeping colonies technologically
outdated.

④ It was seen that as soon
as a nation gets industrial revolution
imperialist tendencies increased
E.g. Germany's Kaiser Wilhelm policy -

⑤ mercantilism - belief that nation's
wealth limited - increase it by increasing
exports and reducing imports

Both I.R and imperialism complemented
each other.

- ⑥ Capitalism promoted industrialisation and needed markets to invest - does by Imperialism.
- ⑦ More colonies meant more power.
↳ Both helped in increasing political clout.
- ⑧ Both depended on peasant exploitation in colonies.
- ⑨ slave trade helped both by providing cheap labour.

This industrial revolution in itself was not the cause of imperialism but only Europe's industrialisation was.

15. The caste system in India has continued to persist by adapting itself to a variety of changing socio-economic and political conditions in the past few decades. Discuss. (250 words) 15

भारत में जाति व्यवस्था विगत कुछ दशकों में परिवर्तित होती विभिन्न सामाजिक-आर्थिक और राजनीतिक स्थितियों के अनुरूप अपने आपको ढालकर विद्यमान है। चर्चा कीजिए।

Caste system is a unique Indian feature of hierarchical arrangement of groups. It's ancient nature ensured that it persisted even after socio-economic and political changes.

Adaptation to (socio-economic changes):

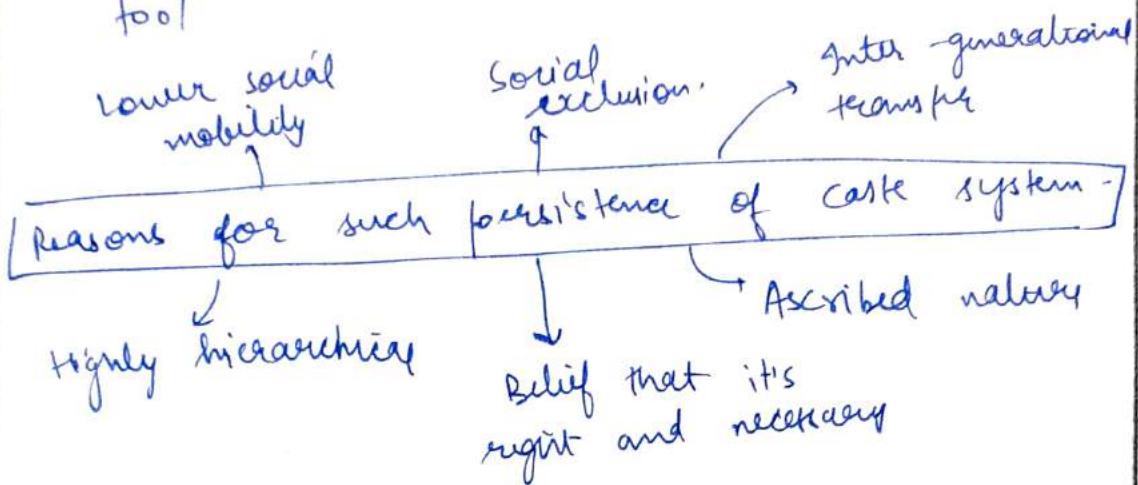

- ① Increased employment opportunities by Article 16 → workplace discrimination still exist → informal workers comprising 90% of workers still face discrimination
- ② Social mobility still poor - example India stands at 76/82 in WEF's social mobility index.

- (3) emancipation of lower castes
↳ improper targeting of employment reservation
- (4) Dominant caste phenomenon - at gunpoint
by Indian sociologist M.N. Srinivas :-
↳ certain caste became stronger politically and economically due to ~~if~~ OBC reservation Ex. Yadavs (Bihar), Gonds (west bengal)
- (5) Indian experts report pointed out - ~~that~~
As in 86 board toppers of past 23 decades - no dalit or tribal
↳ poor educational expansion

Adaptation to political changes :-

- (1) Dalit leader projected as a face in election - to grab votes - but no real work done post election.
- (2) improper targeting of political reservation

③ still vote - bank policies used as a tool

Two phenomenon observed in recent decades:

To deal with this issue there is need to properly target reservation, increase social interaction and citizen awareness.

कुछ लोगों द्वारा यह तर्क दिया जाता है कि अंतर्राष्ट्रीय अखंडता के लिए एक खतरा है। जबकि अन्य लोग इसे राजनीतिक सहभागिता को सुगम बनाने में एक अति प्रभावशाली माध्यम मानते हैं। चर्चा कीजिए।

Regionalism is affinity attached to belonging to a particular region. It can be both a threat and impactful tool.

Regionalism as a threat to national integrity:

① sons of soil doctrine - that resources of region belong to original inhabitants - leads to discrimination, violence
Eg. violence against North Indians in Mumbai

② sub-nationalism - where nationalism becomes second to regionalism - leads to disintegration-mit tendencies.

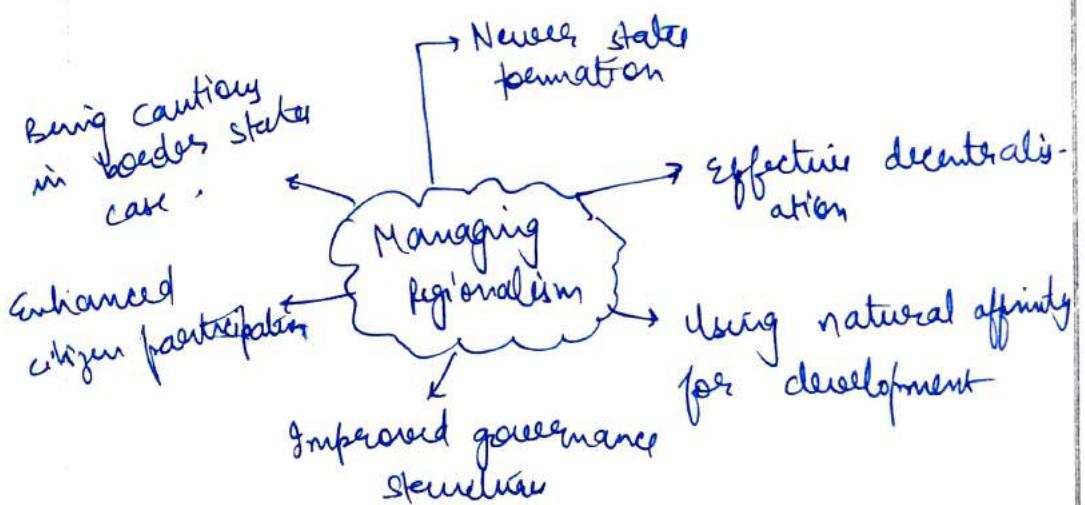

Eg. In Manipur - where certain factions demand independence.

- ③ Federalisation of foreign policies -
 dilution of central extra-territorial
 powers as given under Article 245
 Ex: Teesta river issue
- ④ Border states - Regionalism in border
 states increases threat of disintegration.
- ⑤ Threat of Balkanisation - E.g. As seen
 in Yugoslavia and Catalonia.
- Regionism as a tool to facilitate
 political participation :-
- ① Increased decentralisation - effective
 democracy, better administration, fulfilling
 Gandhi's ideal of subsidiarity.
 - ② fulfilling political aspiration - E.g. formation
 of Jharkhand
 - ③ aiming right of development at own pace - E.g. Jharkhand formation.

④ Respecting demography of a region - more representation in policy formation. E.g. Chhattisgarh formation unrepresented tribals.

⑤ Better administration E.g. Uttaranchal formation

Regionalism should be identified as respected to prevent it from turning into sub-nationalism

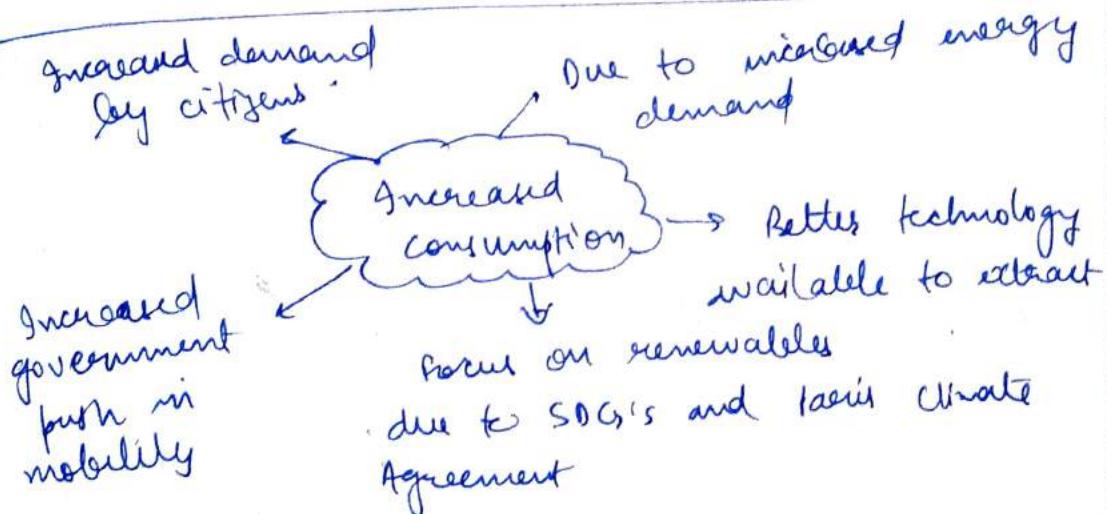

and it's regionalism if managed properly will increase its diversity and enrich its culture. It will never affect political participation.

(250 words) 15

प्राकृतिक गैस एक महत्वपूर्ण प्राथमिक ऊर्जा स्रोत बन गया है नथा इसके उपयोग में आगे और बढ़िये होने का अनुमान है। प्राकृतिक गैस के विभिन्न उपयोगों की पहचान कीजिए और विश्व मन्त्र पर इसके वितरण का संक्षिप्त विवरण दीजिए।

Natural gas has gained prominence due to being less polluting and cheaper source of energy.

Usages of Natural gas :-

- ① In transport e.g. now Cars and auto's - even buses work on LNG
- ② In households - for cooking and water heating

1417
VISION IAS

- (3) As alternate source of fuel in
industries
→ for baking
→ for metal extraction
- (4) In heating and cooling appliances
in buildings

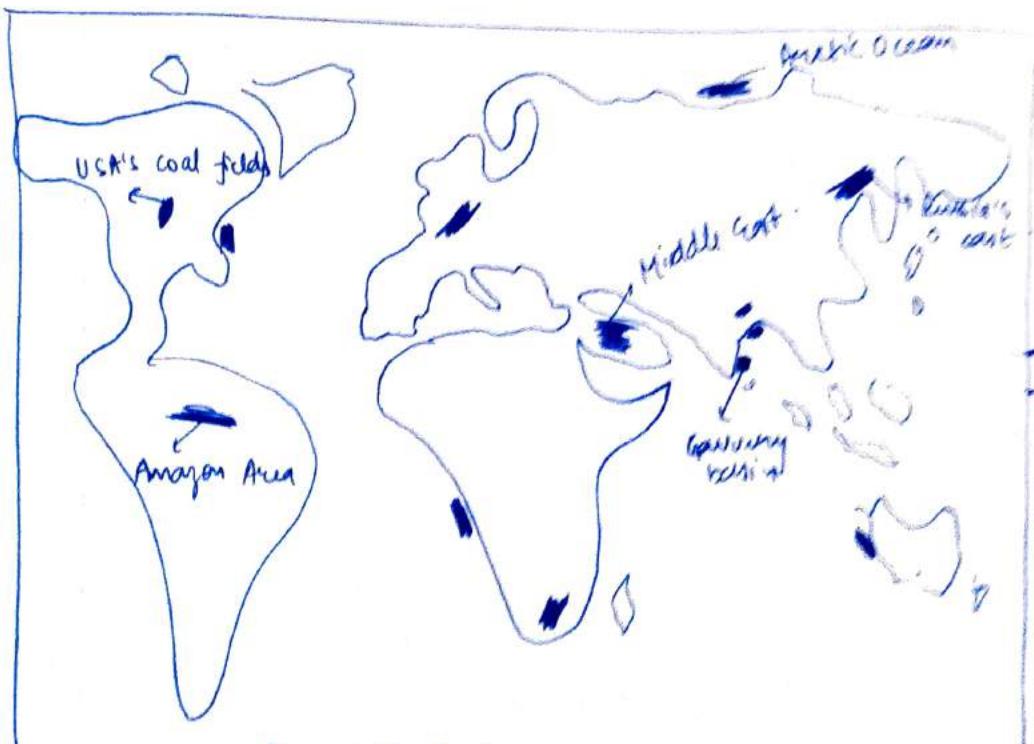

Fig - Distribution of natural gas.

Distribution

- ① In oceans - In form of methane hydrates
 - ↳ Arctic Ocean
 - ↳ Indian Ocean.
- ② In tropical regions - trapped along with
 - petroleum oil and coal
 - ↳ ex. middle east
 - ↳ India's Canyon basin
- ③ In shale gas formations

Natural gas promotion is needed to fulfill SDG-7 aims of affordable, clean and availability of energy

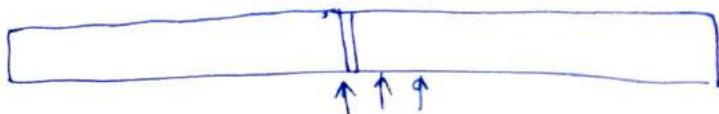

18. Describe the process of rift valley formation, with special emphasis on the Great Rift Valley System.
 (250 words) 15

महान भूंश घाटी प्रणाली पर विशेष बल देते हुए, भूंश घाटी के निर्माण की प्रक्रिया का वर्णन किजिए।

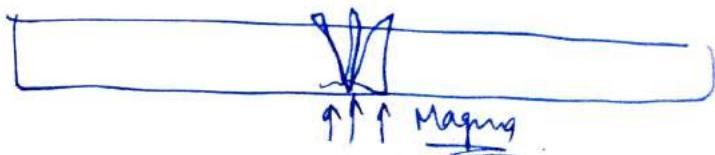

Rift valley are formed by
 due to the process of Continental suture
to Earth's internal forces.

Process of rift valley formation :-

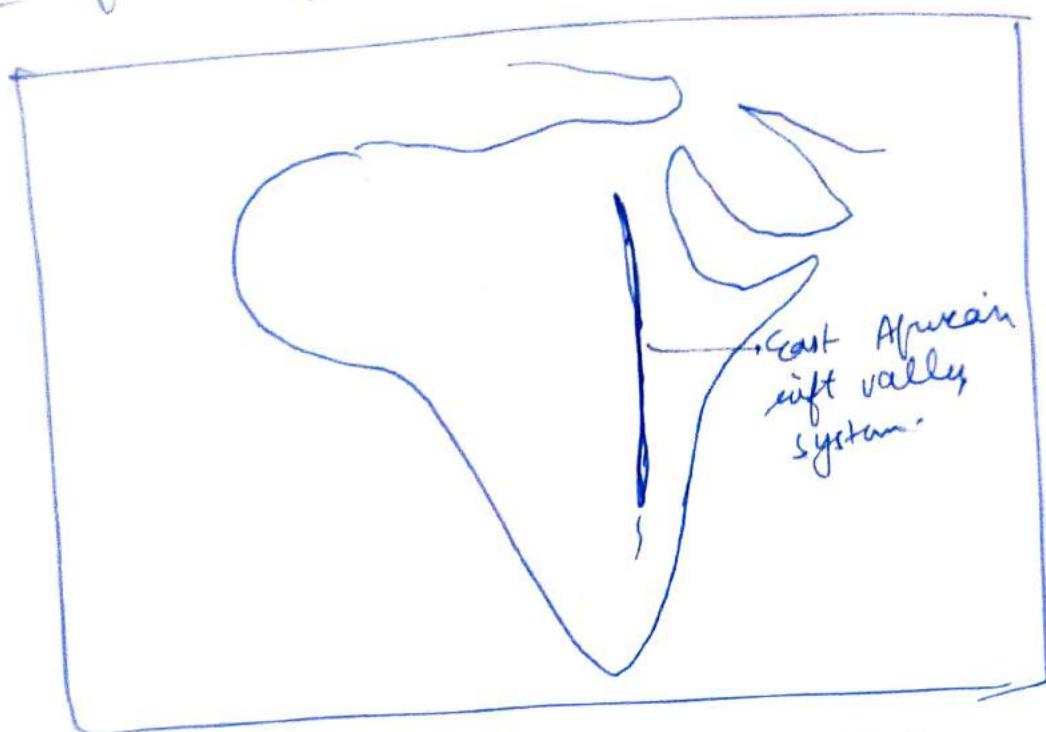

- Building of force and tension in the lithosphere - along a line

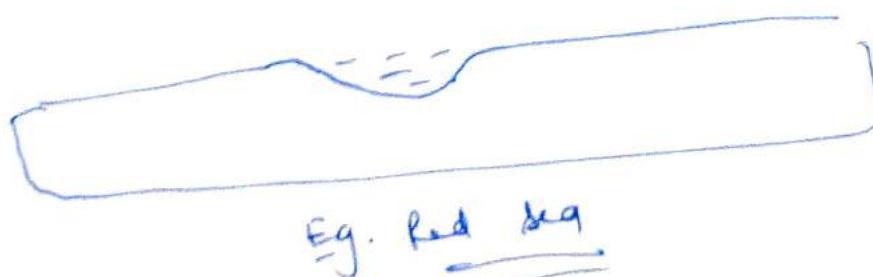

- Cracking of lithosphere due to this force.
- Widening of the rift with pressure from magma below

- Separation of the continental landmass to form a rift
Ex: African Rift Valley

- This rift widens and is filled by water

- The landmass further gets separated to form larger ocean
E.g. - Atlantic ocean

- * This process is extremely slow in speed and is a result of forces and magma building up in the interior of Earth's surface

19. India's water resources have witnessed rapid depletion due to a mix of economic, geographic, and political factors. Explain and discuss its implications. (250 words) 15

भारत के जल संसाधनों में विभिन्न आर्थिक, भौगोलिक और राजनीतिक कारकों के संयोजन के कारण तेजी से हास देखा गया है। स्पष्ट कीजिए परं इसके निहितार्थों की विवेचना कीजिए।

As per Niti Aayog's 'Composite Water Management Index' 2020 - 2/3rd of Indian districts are water stressed and 11 major cities face threat of ^{drinking} water depletion.

Factors responsible:-

ECONOMIC

- ① Over exploitation by industries like jute, chemical industries
- ② Poor water pricing policy as mandated by National water policy
- ③ Lack of resources to treat wastewater
- ④ faster GDP growth - water usage increase both domestically and at workplace.

[Geographic]

- ① Monsoon concentration in certain months of June - July
- ② Rainfall disparity across India E.g. Rajasthan, Vidarbha region.
- ③ Poor water retention in Deccan due to tough surface

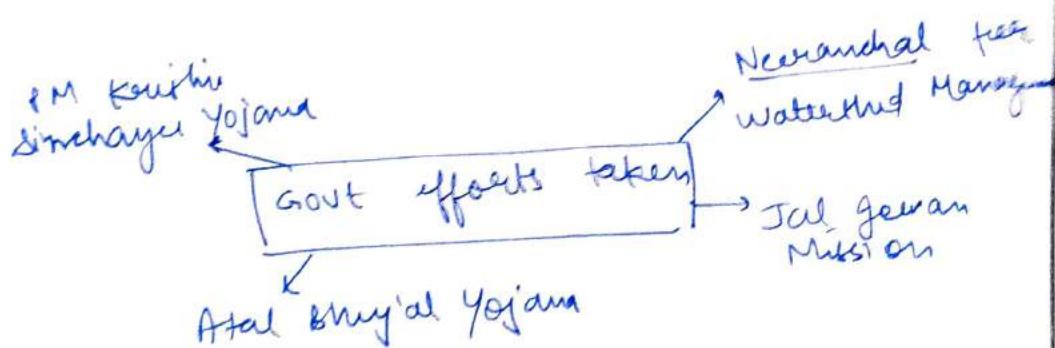

[Political]

- ① Subsidies in agriculture lead to excessive groundwater extraction
- ② Poor data collection and mapping
- ③ Water tax missing
- ④ Inefficient drainage system in urban areas.

[Implications] of rapid depletion :

- ① Agriculture - lower yield, productivity
- ② Drinking water depletion
 - ↳ increased health cost related to sanitation

- ③ Groundwater contamination by heavy metals
- ④ Stress on water dependent industries
Eg food processing
- ⑤ Change in food chain, ecosystem and biodiversity -
- ⑥ Enhanced desertification

way ahead

Need is to focus on watershed development by adopting systems approach. Empowering local communities and leveraging ancient water harvesting systems is the key.

20. How are plateaus formed? Also, briefly discuss the features of the Deccan plateau and its economic significance.
 (250 words) 15

↓
leads to weathering and erosion.

[features] of Deccan Plateau

- ① Highly stable to erosion due to hardness
- ② Formed of black soil due to magma solidification
- ③ Formed due to Magma
- ④ extremely old.

[Economic significance]

- ① for Agricultural crops like Cotton
- ② stable to outside geographical weather
