

Lesson - 4

Let's talk—

Addition (1 to 9)

There are two ducks
in a pond. Another one
comes and join them

Now three ducks are
swimming happily.

Again another two
come and join them.

Three ducks join
with two and thus
five ducks are flying
in the pond now.

How many are there in total?

and equal

and equal

and equal

and equal

How many are there in total?

5

and

3

equal

8

and

equal

and

equal

Reshma has 3 pencils. Budhuwa has given her 1 pencil. Now Reshma has 4 pencils. 3 pencils and 1 pencil make 4 pencils. This is called addition. Remember, we use (+) symbol for addition.

$$3+1=4$$

How many are in total?

$$\boxed{3} + \boxed{2} = \boxed{5}$$

$$\boxed{} + \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

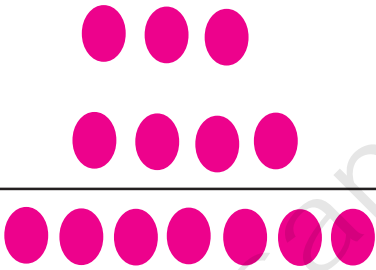

Let's add—

$2 + 3 =$	$1 + 1 =$
$1 + 2 =$	$3 + 4 =$
$5 + 2 =$	$3 + 5 =$
$2 + 2 =$	$4 + 5 =$
$3 + 2 =$	$3 + 3 =$
$6 + 1 =$	$4 + 4 =$
$1 + 5 =$	$7 + 1 =$
$4 + 3 =$	$4 + 2 =$
$5 + 1 =$	$7 + 2 =$
$2 + 6 =$	$5 + 4 =$
$5 + 3 =$	$8 + 1 =$

We can add in this way also—

$$\begin{array}{r} 3 \\ + 4 \\ \hline 7 \end{array}$$

Add Yourself

$\begin{array}{r} 5 \\ + 2 \\ \hline \end{array}$	$\begin{array}{r} 4 \\ + 5 \\ \hline \end{array}$	$\begin{array}{r} 6 \\ + 2 \\ \hline \end{array}$	$\begin{array}{r} 3 \\ + 2 \\ \hline \end{array}$
$\begin{array}{r} 2 \\ + 2 \\ \hline \end{array}$	$\begin{array}{r} 3 \\ + 4 \\ \hline \end{array}$	$\begin{array}{r} 6 \\ + 3 \\ \hline \end{array}$	$\begin{array}{r} 5 \\ + 1 \\ \hline \end{array}$
$\begin{array}{r} 7 \\ + 2 \\ \hline \end{array}$	$\begin{array}{r} 8 \\ + 1 \\ \hline \end{array}$	$\begin{array}{r} 4 \\ + 2 \\ \hline \end{array}$	$\begin{array}{r} 4 \\ + 1 \\ \hline \end{array}$

Add and then Match—

$4 + 1$

$5 + 2$

$3 + 3$

$2 + 1$

$5 + 3$

$3 + 1$

$7 + 2$

$2 + 2$

$2 + 4$

$3 + 2$

$1 + 2$

$6 + 2$

$4 + 3$

$6 + 3$

Draw one more object in each box. Now count and write the number in the small box.
