6	Internal Assessment - Project work	13

#### **RATIONALE**

The History curriculum introduces the students to a set of important historical events and processes through a focus on a series of historical issues, debates and through various sources. Discussion of these themes would allow students not only to know about the events and processes, but also to discover the excitement of reading history. However, practical way of assessing whether the learning objectives have been actualized or not, can be ensured by the way of having stated outcomes. These outcomes have been enumerated against the learning objectives so that the concerned teachers and their students can adopt different kinds of constructive strategies and competency-based assessment techniques. It is also to be understood that the learning objectives and their outcomes are essentially linked and complementary to each other.

#### **AIMS & OBJECTIVES**

History gives us the tools to analyse and explain problems in the past, it helps us to see the patterns that might otherwise be not known in the present. It provides a crucial perspective for understanding and solving the current and future problems.

Studying the diversity of human experience helps us appreciate cultures, ideas, and traditions and to recognize them as meaningful outcomes of specific times and places. History helps us realize how different is our life from that of our ancestors, yet how similar we are in our goals and values. With lessons from the past, we not only learn about ourselves and how we came to be, but also develop the ability to avoid mistakes and create better paths for our societies.

The subject emphasizes that history is a critical discipline, a process of enquiry, a way of knowing about the past, rather than just a collection of facts. The syllabus would help them to understand the process through which historians write history, by choosing and assembling different types of evidence, and by reading their sources critically. They will appreciate how historians follow the trails that lead to the past, and how historical knowledge develops.

The syllabus would also enable students to store/relate/compare developments in different situations, analyse connections between similar processes located in different time periods, and discover the relationship between different methods of enquiry within history and the allied disciplines.

#### THEMES IN CLASS XI

# The syllabus in class XI is organized around some major themes in the world history.

- 1. Focus on some important developments in different spheres-political, social, cultural, and economic.
- 2. Study not only the grand narratives of development-urbanization, industrialization, and modernization-but also to know about the processes of displacements and marginalization. Through the study of these themes' students will acquire a sense of the wider historical processes as well as an idea of the specific debates around them.

The treatment of each theme in class XI would include an overview of the theme under discussion, a more detailed focus on one region of study and an introduction to a critical debate associated with the issue.

Many of the themes will introduce to the debates in the field and show how historians continuously rethink old issues.

# COURSE STRUCTURE CLASS XI

Section Title	Theme No.	Theme Title	No. of periods	Marks
Reading of World History		Introduction of world History	10	
•		Introduction Timeline I (6 MYA TO 1 BCE)	05

## PROJECT WORK MM - 20

#### INTRODUCTION

History is one of the most important disciplines in school education. It is the study of the past, which helps us to understand our present and shape our future. It promotes the acquisition and understanding of historical knowledge in breath and in depth across cultures.

The course of history in senior secondary classes is to enable students to know that history is a critical discipline, a process of enquiry, a way of knowing about the past rather than just a collection of facts. The syllabus helps them to understand the process, through which a historian collects, chooses, scrutinizes, and assembles different types of evidence to write history.

The syllabus in class-XI is organized around some major themes in world history. In class XII the focus shifts to a detailed study of some themes in ancient, medieval, and modern Indian history.

CBSE has decided to introduce project work in history for classes XI in 2013-14 as a part of regular studies in classroom, as project work gives students an opportunit to develop higher cognitive skills. It takes students to a life beyon d text books and provides them a platform to refer materials, gather information, analyse it further to obtain relevant information and decide what matter to keep and hence understand how history is constructed.

#### **OBJECTIVES**

# **Project work will help students:**

- ❖ To develop skill to gather data from a variety of sources, investigate diverse viewpoints and arrive at logical deductions.
- ❖ To develop skill to comprehend, analyse, interpret, evaluate historical evidence, and understand the limitation of historical evidence.
- ❖ To develop 21st century managerial skills of co-ordination, self-direction, and time management.
- ❖ To learn to work on diverse cultures, races, religions, and lifestyles.

- ❖ To learn through constructivism-a theory based on observation and scientific study.
- ❖ To inculcate a spirit of inquiry and research.
- ❖ To communicate data in the most appropriate form using a variety of techniques.
- ❖ To provide greater opportunity for interaction and exploration.
- ❖ To understand contemporary issues in context to our past.
- ❖ To develop a global perspective and an international outlook.
- ❖ To grow into caring, sensitive individuals capable of making informed, intelligent, and independent choices.
- ❖ To develop lasting interest in history discipline.

#### **GUIDELINES TO TEACHERS**

This section provides some basic guidelines for the teachers to take up projects in History. It is very necessary to interact, support, guide, facilitate and encourage students while assigning projects to them.

- ❖ The teachers must ensure that the project work assigned to the students individually/ In-groups and discussed at different stages right from assigning topic, draft review to finalization.
- Students should be facilitated in terms of providing relevant materials, suggesting websites, obtaining of required permission for archives, historical sites, etc.
- ❖ The Project Work should be suitably spaced from April to November in classes XI so that students can prepare for Final Examination.
- ❖ The teachers must ensure that the students submit original work.
- ❖ Project report should be Handwritten only. (Eco-friendly materials can be used by students)

## The following steps are suggested:

- ❖ Teacher should design and prepare a list of 15-20 projects and should give an option to a student to choose a project as per his/her interest.
- The project must be done individually / In-groups.
- The topic should be assigned after discussion with the students in the class to avoid repetition and should then be discussed at every stage of submission of the draft/final project work.

- The teacher should play the role of a facilitator and should closely supervise the process of project completion, and should guide the children by providing necessary inputs, resources etc. to enrich the subject content.
- ❖ The Project Work needs to enhance cognitive, affective, and psychomotor domains in the learners. It will include self-assessment and peer assessment, and progress of the child in project-based and inquiry-based learning. Art integrated Activities, experiments, models, quizzes, role plays, group work, portfolios, etc., along with teacher assessment. (NEP-2020)
- The Project work can culminate in the form of Power Point Presentation/Exhibition/Skit/albums/files/song and dance or culture show /story telling/debate/panel discussion, paper presentation and whichever is suitable to visually impaired candidates.
- ❖ Students can use primary sources available in city archives, Primary sources can also include newspaper cuttings, photographs, film footage and recorded written/speeches. Secondary sources may also be used after proper authentication.
- Evaluation will be done by external examiner appointed by the Board in class XII and internal in class XI.

Note: The project reports are to be preserved by the school till the final results are declared, for scrutiny by CBSE.

#### FEW SUGGESTIVE TOPICS FOR PROJECTS - CLASS XI

- 1. Facets of the Industrialization in sixteenth- eighteenth centuries.
- 2. Crusades: causes; rationale; events; outcomes; Holy Alliance
- 3. Ancient History in depth: Mesopotamia
- 4. Greek Philosophy and City States
- 5. Contributions of Roman Civilization
- 6. The spirit of Renaissance: Manifestation in art; Literature; Sculpture; Influence on Trading Community; Social Fabric; Philosophy; Political Values; Rational Thinking; Existentialism
- 7. Aspects of Development -South American States /Central American States
- 8. Different schools of thoughts- Realism: Humanism: Romanticism
- 9. Piecing together the past of Genghis Khan
- 10. Myriad Realms of Slavery in ancient, medieval, and modern world
- 11. History of Aborigines America /Australia
- 12. Facets of Modernization China /Japan/Korea

(Projects are an imperative component in enhancing students learning with the related themes. In the research project, students can go beyond the textbook and explore the world of knowledge. They can conceptualize under the embedded themes. Forms of rubrics are a significant aspect and to be discussed in the classroom itself for clear understanding of concept and for assessment.) Note: Please refer Circular No. Acad.16/2013 dated 17.04.2013 for complete guidelines.
